Police Recover 5 Paintings Stolen From Venice Church

VENICE, Sept. 15 (Reuters).—Police today recovered five stolen Renaissance paintings valued at 3 million from the attic of an unoccupied old people's home.

At dawn two boatloads of police, carabinieri and customs officers converged on the tiny island of Poveglia in Venice lagoon and found the paintings — two panels of a triptych by Giovanni Bellini and all three of another by Bartolomeo Vivarini. Francesco Valcanover, superintendent of galleries and art works in the Venice region, said later that police were on the point of finding the Titian picture of a Madonna between two saints stolen from the painter's birthplace at Pieve di Cadore near the Austrian border.

Police said they paid an informer 88,000 to learn the whereabouts of the five pictures.

Reward Offered

This was the sum offered some days ago by the president of the Italian committee for Venice, Prof. Bruno Visentini, for information leading to the recovery of the paintings before the end of September.

Police said that they knew the names of the thieves and expected to arrest them by the end of the week.

These were minor figures in the Venice underworld who had no previous convictions for art thefts, they said. It appeared that they had not committed the theft on commission, otherwise the paintings would not have been recovered, police said. Mr. Valcanover said that two of the paintings were slightly damaged. All five were taken to a police headquarters to the Accademia Gallery for restoration work to be carried out.

He said that they would not be returned to San Zenipolo, where many of the doges of Venice are buried, until the Dominican friars who administered the church had set up adequate security precautions against further thefts.

The theft of the five pictures in Venice, coming only a week after the loss of the Titian, shocked the country and brought demands for tough new measures against art thieves from the government's Antiquities and Arts Commission.

The government also called up 3,000 carabinieri reserves to fight a growing crime wave and said that the extra forces might be used to help protect churches containing valuable art works.

Art thefts have been running at an average of nearly one a day this year. More than 80 have involved churches.

Today's operation was a rare joint action of police, carabinieri and customs.

Rodolfo Siviero, Italy's chief stolen-art sleuth, said recently that antagonism between the police and carabinieri was one of the chief obstacles to fighting art thieves.

Recapture Wipes Out A Town in Cambodia

By Craig R. Whitney

KOMPONG THMAR, Cambodia, Sept. 15 (NYT).—This used to be a town of 10,000 people. But it does not exist anymore, because the Cambodian Army "liberated" it Aug. 31 after more than a year of Communist control and the fighting destroyed the empty town in a conflagration of air strikes, explosions and napalm.

Today, nothing but black holes littered with shards of roof and floor tile remains of the wooden houses that surrounded the crossroads, about 75 miles north of Phnom Penh.

The nearby trees were scorched brown by the fire that obliterated the town two weeks ago after air strikes by U.S. and Cambodian bombers were called in.

"The Communists fired rockets from the house," one of the Khmer [Cambodian] battalion commanders, Capt. Lay Chhom, explained today. "The colonel asked for napalm. Three American planes dropped it, and we found three bodies of Communists afterward that were not burned," he said.

Kompong Thmar is on Highway 6 in territory occupied by North Vietnamese and Viet Cong troops in the spring of 1970. Many of the inhabitants fled then and most apparently escaped the recent destruction, but no one here knew if any had been killed.

Escaped Until Now

Many villages—such as Skoun and Tang Kouk in flooded rice paddy country a few miles south of here—were devastated in the fighting then, but the town itself had escaped until two weeks ago. It now presents an aspect of war that was once common in South Vietnam too but is now more often seen in Cambodia, where the war is not relegated to sparsely populated areas.

Peng An, a 44-year-old father of seven children, came up from Phnom Penh at the beginning of this month when he heard the Khmer Army was advancing up Highway 6 toward Kompong Thmar. He found his house, the ruin of it, and he is still here now although he does not seem to know exactly why.

"I don't know about the air strikes," he said. "I came here three days after the army returned. My house has been destroyed. I won't show it to you because I don't want to see it again."

An old woman who was with (Continued on Page 2, Col. 5)

MONEY MEN—John Connally (left), U.S. secretary of the Treasury, and Anthony Barber, chancellor of the exchequer, in London yesterday at Group of Ten talks.

U.S. Seeks Shift Of $13 Billion in Payments Levels

By John M. Lee

LONDON, Sept. 15 (NYT).—Secretary of the Treasury John B. Connally told the United States' trade partners today they must help produce what he conceded would be a "stunning" $13-billion improvement in the American balance of international payments.

Mr. Connally issued this challenge as finance ministers of the leading economic powers, known as the Group of Ten, met to tackle the dollar crisis provoked by President Nixon a month ago.

The issue is what other nations can do or should do to help turn the American payments deficit into a surplus. Washington is pressing for an upward revaluation of foreign currencies, trade liberalization and sharing of worldwide defense commitments.

To spur action, Mr. Nixon upset the basis of the existing monetary system by cutting the dollar loose from gold and raised the specter of trade protectionism by imposing a 10 percent surcharge on American imports.

Sharing a Problem

"We had a problem and we're sharing it with the world, just like we shared our prosperity," Mr. Connally said blandly for the television cameras as he left the afternoon meeting. "That's what friends are for."

Some of these friends, however, took exception to the secretary's estimate of the size of the problem and thus of the steps required to rectify it.

Mario Ferrari-Aggradi, Italian Finance Minister and chairman of the Common Market finance ministers group, criticized the projected $13 billion turnabout as "too ambitious" and one that would disrupt world economies if achieved too quickly.

● G-10's agents dash around the world in the service of the "rich man's club." Page 7.

The $13-billion turnaround figure Mr. Connally mentioned is the swing from a projected payments deficit, which ran at a $9-billion annual rate in the first half, to a payments surplus of undefined size.

"I admitted it was a stunning figure," Mr. Connally said at a news conference, "but it is a very conservative figure." He said it was not produced just for negotiating purposes but was a realistic figure and made no allowances to cover short-term money movements or for any net increase in long-term capital flows.

The secretary gave no indication of the schedule he had in mind for achieving such an enormous swing, but it would obviously take years. His aides said most of the improvement must come from merchandise trade.

Edgar Benson, the Canadian Finance Minister and chairman of the meeting, told newsmen, "It's fruitless to talk about amounts."

Friendly Atmosphere

But if the difference still yawned wide, the atmosphere was still friendly. The ministers set out their positions calmly for about two and a half hours in the ornate upstairs music room at Lancaster House, a former royal residence near Buckingham Palace.

Tonight, they reassembled for informal talks during a black-tie dinner given by Anthony Barber, British Chancellor of the Exchequer. The meeting ends tomorrow with an all-day formal session. Little measurable progress is expected, however.

"We're feeling for procedure, for methods, for a way to do it," Mr. Connally said, describing for newsmen the meeting's approach to the tangled trade and currency problems.

"It's too much to hope we'd do much more than get our positions out on the table," he continued, "and get a feeling of the firmness of the respective positions."

However, European foreign exchange markets were highly unsettled today by the prospect that ministers might negotiate higher parities for strong currencies, and the dollar came under strong pressure.

Mark at New High

The West German deutschemark was at a new high of 3.3670 to the dollar, up from yesterday's 3.3755. Today's rate depreciated the dollar against the mark by 8 percent. The dollar fell also against the British pound, the Swiss franc, the Dutch guilder and the Italian lira. It was unchanged against the Japanese yen and the French franc.

The Bank of England entered the market this afternoon to limit the pound's upward float to $2.4712, up from yesterday's $2.4676.

The new rate devalues the dollar against the pound by 2.9 percent. Other effective dollar devaluation rates are 6.4 percent against the yen, more than 6 percent against the Canadian dollar and 5.7 percent against the guilder.

However, Washington officials

(Continued on Page 2, Col. 6)

Controversy Grows

Attica Mystery: Who Slew Hostages?

From Wire Dispatches

ATTICA, N.Y., Sept. 15.—Russell G. Oswald, the official who ordered the storming of Attica State Prison, reversed himself last night and conceded that the nine slain hostages died of gunshot wounds and not from having their throats slashed by inmates, as he originally reported.

Mr. Oswald, the state commissioner of correctional services, also said that the rebel convicts did not have firearms.

The commissioner said the hostages had been dressed like convicts and in some instances were used as shields.

Mr. Oswald did not say whether the bullets were fired by the 1,700 state police, National Guardsmen and sheriffs' deputies who stormed the prison Monday to put down the five-day rebellion.

"We have no further comment," a spokesman said at a news conference between a tired-looking Mr. Oswald and about 100 newsmen inside the main gate at Attica.

Establishing just how the nine guards died will be one of the main tasks of five separate inquiries that have been set up into the riot.

Other questions were how the reports of throat-slitting originated, the origin of false reports that some of the hostages were killed before the Monday assault, and that at least one had been castrated, and what were the precise instructions given to the assault forces.

The fact that the hostages had been shot raised speculation that they had been hit by police bullets. One problem facing the police was that with hostages in prison garb, they were almost indistinguishable from the convicts. However, the guards were all white and the rioters largely Negro and Puerto Rican.

"We had prison uniforms on and they [police and guardsmen] were shooting," said Frank Strollo, one of the hostages who survived. "I figured someone had to get hit. The only way they could have told that I was a hostage was because my hands were tied."

Some of the state troopers who took part in the assault said they had told their superiors the hostages' throats had been cut because that was what they had assumed had happened.

"When we heard they were dead we just sort of assumed their throats had been cut," said a trooper who asked not to be identified. "The inmates said they'd cut their throats and we figured that's what happened."

Described by his staff as an "exhausted man in many ways, physically and emotionally," the hefty commissioner had a strong voice, but his eyes were bloodshot and partially closed as he spoke. Aides said he had had only seven hours' sleep in several days.

Another prisoner died today, raising the death toll to 32 inmates and 10 hostages from the

Senator Calls Story a Lie

Saigon Says McGovern Met Reds, Militia Raided Session

SAIGON, Sept. 15 (NYT).—The Saigon police chief said today that government militiamen last night attacked an anti-war meeting attended by Sen. George S. McGovern, D., S.D. The chief charged that the senator had unwittingly been meeting with Viet Cong agents before the militiamen broke up the session with gunshots and fire bombs.

The senator, the only announced candidate for the Democratic presidential nomination, labeled the police chief's words "an outrageous and completely untruthful statement of what happened last night." He demanded an apology from President Nguyen Van Thieu at their meeting today.

Sen. McGovern is in South Vietnam on a three-day tour which ends tomorrow.

Last night, while he was attending a meeting on prison reform with anti-war and anti-Thieu student and religious leaders, a mob broke into the yard outside the Catholic church school where the meeting was being held. It burned a bus and several motorbikes. No one was hurt and there were no arrests.

Out on Bail, He Says

Appearing unannounced at the allied command's daily briefing, Chief of Police Tran Si Tan said that some of the students present last night had been freed on bail while charged with belonging to "the Saigon city Viet Cong youth and student proselytizing group."

"I do not think Sen. McGovern was aware that they were Viet Cong cadre—Viet Cong agents," Mr. Tan said.

Chief Tan said that the names of the Vietnamese and one American present after the meeting would be sent to government courts, where it would be decided whether or not to prosecute.

The American the chief mentioned is David Bourquin, a U.S. Marine veteran of the Vietnam war who now teaches at the University of Hué. He served as Sen. McGovern's translator at the meeting last night.

The senator said Mr. Thieu appeared surprised when told that Chief Tan had called some of the students Viet Cong.

"I told him I regard it as a personal insult to me," Sen. McGovern said, "and he said he would look into it."

More Violence in Hué

SAIGON, Sept. 15 (AP).—Fire bombs were thrown for the third straight day today in the old imperial capital of Hué in continuing anti-American and anti-government demonstrations by South Vietnamese students.

The Hué University student union has been organizing the demonstrations to protest a shooting incident Monday in which an American soldier killed a 19-year-old student and wounded a 13-year-old boy.

er Talks With Sadat

ome Feels Egypt Is Ready o Make Peace With Israel

By Raymond H. Anderson

IRO, Sept. 15 (NYT).—British Foreign Secretary Sir Alec las-Home said today he was nced, after three days of ltations in Cairo, that Egypt in a mood for "permanent " with Israel.

lis is a fact of the first tance," he declared at a conference.

preparation for active efforts reak the Egyptian-Israeli ck, Sir Alec arrived in Sunday for comprehensive with President Anwar Foreign Minister Mahmoud und other Egyptian officials. focus of his inquiries evi- was on Egyptian reaction pts of a settlement that provide Israel with assurances of security and peace in exchange for its withdrawal from Arab lands occupied in June, 1967.

The British official, without being specific, indicated that he was satisfied with the responses of Mr. Sadat and Mr. Riad to questions about security guarantees, demilitarized zones and an international peace-keeping force subject to withdrawal only by order of the United Nations Security Council.

Paramilitary Force Expanded

Ulster Extends Internment as 4 More Die

From Wire Dispatches

BELFAST, Sept. 15.—As four more killings within 24 hours brought Northern Ireland's two-year death toll to 105, provincial Prime Minister Brian Faulkner today extended the detention without trial of suspected Irish Republican Army members, prolonging the policy known as "internment" and blamed by many for the last five weeks' upsurge of violence in Ulster.

Mr. Faulkner, signing orders for the indefinite detention of 219 IRA suspects seized in August, said neither the IRA nor any other organization would be permitted to achieve its aims by armed force. On a day when this capital echoed to bomb explosions and gunfire between opposing Catholic and Protestant civilian groups, the provincial government also announced a build-up of the paramilitary Ulster Defense Regiment to "contain the growing sabotage and terrorism."

In what political sources called the British government's answer to Protestant demands for arming of Protestant civilians, the Northern Irish Defense Ministry said it was forming "a new, part-time unit" to supplement the defense regiment. The purpose of the extension of the defense group was to give assistance to the beleaguered 12,000 regular soldiers of the British Army in Ulster, the ministry said.

Mr. Faulkner said that he "exercised powers of internment with the greatest possible reluctance." He said: "The only reason anyone is interned is that he belongs to and has actively supported an organization which advocates and uses violence for political ends." He declared that among the 219 detainees there were more than 80 officers of the Official and Provisional wings of the IRA. He said that the illegal IRA, and not Catholics in general, was the target of the internment policy.

Civilian Is Killed

William McGrenary, 40, a shop assistant, was killed when shot today as he approached a British Army observation post in Londonderry while holding a rifle, police said. British Army Pvt. Paul Carter, 21, died today of stomach wounds inflicted yesterday. Also slain within the last 24 hours were Pvt. John Rudman, who died of wounds suffered in a Londonderry ambush yesterday, and Sgt. Martin Carroll, 26, who succumbed almost immediately upon being shot yesterday in that second largest city in Ulster.

In Belfast today, Catholics and Protestants fought each other with gasoline bombs, stones and bottles in a section of the Old Park Road known as "The Bone"—a group of five streets inhabited by Catholics and surrounded by homes of Protestants. The area was sealed off by British Army troops who fired rubber bullets to separate the fighting civilians, authorities said. No one was reported injured.

In Belfast tonight, soldiers stormed a barricade and, in an exchange of shooting, one civilian behind the barricade was seen to fall.

In Londonderry, about 50 persons stormed the police post in Bligh's Lane and shots were fired but no injuries were reported.

In addition to extending the internment policy and expanding the defense regiment, Mr. Faulkner's regime today also filed the first suits against private citizens who have been withholding rent payments as part of the Catholic minority's civil-disobedience campaign.

Civil-rights crusaders condemned the internment policy's extension beyond its originally scheduled 28 days. Bernadette Devlin, a mid-Ulster member of the Ulster and British Parliaments, said the extension would intensify resistance to the government in Belfast. Other dissenters took to the streets for demonstrations.

The IRA's "command" in Londonderry said today that it was responsible for the fatal ambush of soldiers in that city yesterday, and said the attack was justified by British Army brutality toward children.

In London, there were moves to have the Ulster government's internment policy overruled by a British tribunal. But the Court of Appeal decided that the High Court has no power to issue writs of habeas corpus to free the detainees in Northern Ireland.

Fixed Fares On N. Atlantic Expire Feb. 1

Lufthansa Rejects Accord, Plans Cuts

By Thomas J. Hamilton

GENEVA, Sept. 15 (NYT).—The 25 airlines serving the North Atlantic will be free to charge whatever fares they please during "an experimental period" lasting from next Feb. 1 until March 31, 1973, Knut Hammarskjold, director-general of the International Air Transport Association, announced today.

"The traveling public can expect happy times, very low fares," Mr. Hammarskjold told a news conference after he had received Lufthansa's final rejection of the rates accepted by the other airlines at a conference in Montreal during the summer.

At the same time, however, Mr. Hammarskjold said that he expected only slight cuts in normal fares and that the fares on excursions and youth tickets would probably be close to the rates adopted in Montreal.

Transatlantic fares between now and next February will remain unchanged. But the airlines probably will hold a conference this fall to discuss adjustments required by the international monetary crisis, he added.

Lufthansa Rates

Meanwhile, Lufthansa, electing to stay on a course independent of other scheduled airlines of the world, announced today that it would offer a new low, simplified range of fares for transatlantic travel beginning Feb. 1, 1972.

The new fares for off-season round trips between Frankfurt and New York will be as low as $180 for package tours organized by travel agents for five persons or more.

The excursion rate, for trips over the same route that last between 14 and 45 days, will be $210 off season.

[In Paris, Air France announced today that it was "practically certain" that it would introduce an individual excursion fare of 1,100 francs—$200 at official parity—for Paris-New York round-trip flights next year. It will also offer lower group fares on the route next year, at a rate yet to be fixed but under 1,000 francs or $180 roundtrip, the Associated Press reported.]

[In New York, Reuters reported, Trans World Airlines declared today that "TWA will not be undersold. If you're planning a trip, TWA guarantees that no scheduled airline will take you to any city, across the United States or around the world, for less money than TWA."]

No scheduled airline has offered fares as low as these promised by the West German airline. The decision, reached at a board meeting in Cologne yesterday and announced in Frankfurt today, put Lufthansa squarely in opposition to IATA and the 40 international airlines it represents.

Speaking before Lufthansa announced the considerable reductions in its excursion fares, Mr.

(Continued on Page 2, Col. 5)

Arms Costs Same as Health Plus Education

GENEVA, Sept. 15 (UPI).—The world spends as much for military purposes as it does on education and health together, the International Bureau of Education said today.

The bureau told its 23d international conference on education that the latest available figures, for 1967, showed that $173 billion was spent on armaments and other military requirements. This compared to $120 billion on education and $59 billion on public health, it said.

The figures did not include China, North Korea and North Vietnam.

Cleric Tells Trial Papers Were Planted

South African Dean Was 'Horrified'

PRETORIA, Sept. 15 (Reuters).—The Anglican dean of Johannesburg said at his trial here today that illegal pamphlets found at his home by police must have been planted.

The dean, the Very Rev. Gonville ffrench-Beytagh, said: "I was horrified and very frightened. I knew something evil was going on because they (the pamphlets) were there."

The 59-year-old cleric has pleaded not guilty to 10 charges under South Africa's Terrorism Act, including plotting the overthrow of the government.

Today he told the court that during a police search of his flat, he accompanied them to his spare room and, behind a carton in a cupboard, the police found a shoe box containing pamphlets of the banned African National Congress.

'Many Enemies'

The dean said he had never seen them before. Defense counsel Sidney Kentridge asked: "What do you believe is the explanation for this box?"

"I said at the time, somebody must have put it there," the dean answered. "It could have been anyone. I have many enemies."

Mr. Kentridge asked if the cleric believed that the police had planted the box.

"I am quite certain they did not plant it on that occasion," the dean replied. "I believe they were acting on information received."

The dean said that it was possible for unauthorized people to enter the flats in his block.

Of Louis Kenneth Jordaan, a police agent who posed as a friend of the dean and later gave evidence against him, the cleric said he had been a fool not to have realized at a certain stage that Mr. Jordaan was a police agent.

From time to time Mr. Jordaan talked about sabotage and mentioned a plan to attach bombs to ships, the dean said, adding: "I was horrified and said he must not do anything of the kind."

Brandt Defends His Trip Tomorrow to See Brezhnev

By David Binder

BONN, Sept. 15 (NYT).—Responding to mounting press criticism and suggestions that some of West Germany's allies are annoyed, Chancellor Willy Brandt asserted today that his private meeting Friday with the Soviet party leader Leonid Brezhnev would be "useful" to all concerned.

Numerous West German papers carried commentaries today criticizing Mr. Brandt's willingness to meet Mr. Brezhnev without press coverage at a secluded seaside resort on the Crimean peninsula. The Bonn press corps also sent him a formal protest.

This afternoon it was disclosed that the Soviet government had agreed at the last minute to allow 15 West German journalists to travel to Simferopol, about 30 miles from Oreanda, where the Brandt-Brezhnev conference is to take place. A Bonn spokesman said the journalists would be informed "at least indirectly" about the meetings.

Western allies were reported to be annoyed that the chancellor had deliberately chosen to inform them of his trip only after he had accepted Mr. Brezhnev's invitation.

Cabinet Called

Mr. Brandt called his federal cabinet together on the eve of his Crimean flight to say that the trip was "in no case a matter of going it alone politically," according to his deputy spokesman, Rudiger von Wechmar.

The spokesman told journalists afterward that it was the opinion of the Bonn government that it "did not have to consult anyone about invitations from foreign governments."

Mr. Von Wechmar also announced that the chancellor would go on West German television before and after the 48-hour Crimean trip to explain to the public what it was all about.

In another apparent effort to allay suspicions about the trip, the government-sponsored Wickert Opinion Research Institute was asked Sunday to produce a poll on West German attitudes toward the trip. The institute reported this afternoon that "70 percent of the eligible voters," in the Federal Republic "approved" of Mr. Brandt's meeting with Mr. Brezhnev.

In the cabinet meeting this afternoon, Mr. Brandt said the main purpose of the meeting from his point of view was to "evaluate" Soviet-West German relations in the light of the good-will treaty he signed in Moscow 13 months ago.

Moscow Reports Lunokhod Nears End of Function

MOSCOW, Sept. 15 (UPI).—A Soviet report said today the Lunokhod-1 moon robot shows signs of weakening and may be near the end of its life.

Western science sources suggested that the 10-month-old exploring buggy may have already stopped functioning.

The official report said Lunokhod closed its clamshell lid on its solar batteries today and entered mechanical hibernation for what might prove the fight of its life—two weeks of subzero cold during the "lunar night" with its heaters failing.

The eight-wheeled silver robot arrived on the moon aboard the unmanned Luna-17 craft on Nov. 17, 1970. It was assigned only three months work, but surprised its designers by more than tripling that longevity.

Texas Menaced By Storm Edith

GALVESTON, Texas, Sept. 15 (UPI).—Tropical storm Edith, which killed scores of persons and wiped out entire villages in Latin America last week, gathered new vigor today and threatened the shores of Louisiana and Texas, already soaked and flooded by 21-inch rains.

Hundreds were homeless in Texas because of flooding from hurricane Fern, which came in from the Gulf of Mexico earlier this week and caused an estimated $20 million damage.

Home Sees Egypt Ready For Peace

After Cairo Talks With Sadat, Riad

(Continued from Page 1)

British government that a settlement must involve Israeli withdrawal from all Egyptian territory and virtually all Syrian and Jordanian land, subject to mutually agreed boundary changes.

Commenting on Israeli criticism of his explicit statement of this position at a dinner speech Monday night, Sir Alec said:

"It is not my purpose to take sides. It is to find some way to assist the two sides to get together. Otherwise, the prospects are very serious for both countries."

The reference to getting the two sides together reflected a British goal of promoting, at some stage of the diplomacy, a direct meeting of Egyptian and Israeli negotiators. He dealt cautiously with this issue, however.

"At some future date," Sir Alec said, "there might be a need for less indirect talks than today." The more urgent requirement at this time, he added, is to revive the moribund mission of indirect exchanges through Gunnar V. Jarring, the UN representative in the Middle East.

Mr. Jarring has been inactive since last February, when he addressed inquiries to Egypt and Israel about terms for a settlement. Egypt aroused hope for a breakthrough by expressing readiness to sign a peace agreement with Israel in exchange for full withdrawal. Israel, however, declined to give Mr. Jarring a commitment to withdraw.

Although the Egyptians have demanded that Israel reply to Mr. Jarring before the exchanges can continue, the British foreign secretary indicated determination that a way be found around this obstacle.

A way, he suggested, might be an agreed position of the Big Four powers—the United States, Britain, the Soviet Union and France—during coming talks at the United Nations.

After the Big Four talks, he said, the next step should be a revival of the Jarring mission of indirect negotiations, to be followed ultimately by direct exchanges.

Consul Sees Lady Fleming

ATHENS, Sept. 15 (UPI).—The consul general of the British Embassy was allowed to see Lady Amalia Fleming for more than half an hour today at Greek military police headquarters in Athens, where she is being detained for attempting to free a prisoner, an embassy spokesman said.

The spokesman said Lady Fleming "was in good health," but gave no other details.

The spokesman said Consul General John Powell-Jones spent 35 minutes with Lady Fleming—59-year-old widow of the discoverer of penicillin—in the presence of two military police officers. Mr. Powell-Jones is the first official visitor to see her since she was arrested Aug. 31.

Justice Black Has Blood Vessel Illness

WASHINGTON, Sept. 15 (UPI).—Supreme Court Justice Hugo Black, 85, is being treated at Bethesda Naval Hospital for "an inflammatory condition of the blood vessels," his office said today.

Justice Black was admitted Aug. 28, but neither the hospital nor his court aides would say why at the time.

His office issued a one-sentence statement today that Justice Black has been hospitalized "for maintenance of a proper blood sugar balance during steroid treatment of an inflammatory condition of the blood vessels."

New U.K. Envoy to EEC

BRUSSELS, Sept. 15 (AP).—The new British ambassador to the European Economic Community will be Michael Palliser, according to European diplomats here. The six member states have given their approval to the appointment, these sources said. He succeeds Sir James Marjoribanks.

United Press International.

Fixed N. Atlantic Air Fares Will Expire on February 1

(Continued from Page 1)

Hammarskjold insisted that there would be no "price war."

He added that the right of airlines to fix their own fares would create a situation "much more dangerous competition-wise," for the charter airlines than the present "closed situation."

However, he said that all the airlines would know in advance what fare changes the others were preparing to make next year.

Each airline will have to get the consent of its home government for the fare proposals. And all will submit copies of these applications to the association, which will pass them on to the other airlines, Mr. Hammarskjold explained.

As a result, he said, an airline will have the opportunity to modify its proposed changes in the light of what its competitor is proposing.

'Too Complex'

Mr. Hammarskjold conceded that the Montreal package was "too complex," but said it would have been easier if all the airlines had agreed on fixed rates.

The 14-month experimental period, he said, should provide "a sound basis for setting up a good fares structure."

A problem still facing the airlines Mr. Hammarskjold said, is the revision of rates as a result of the devaluation of the dollar in terms of some currencies.

Tentative plans have been made for a conference to discuss the currency problem at Miami on Sept. 29, after the annual meeting of the International Monetary Fund, he added.

In Bonn, Lufthansa said that it was fully aware of the possibility that its action would cause a price war among the 24 airlines that fly the North Atlantic.

"We prefer to call it a test period and have suggested to the other airlines that this be accepted for six months or a year," a Lufthansa spokesman said this afternoon.

"Each airline could try adjusting and simplifying its fares and come up with its own conclusions and perhaps change its attitude," the spokesman said.

The airline's transatlantic flights will be offered now at only eight different fares, with the price of a first-class ticket from Frankfurt to New York remaining unchanged at $866. The other seven fares for round trips over the same route are:

- Economy, off season—$420, instead of $536.
- Economy, high season—$540, instead of $636.
- Excursion, off season—$210.
- Excursion, high season—$270.
- Youth fares, ages 12-21, off season—$195, instead of $210.
- Youth fares, ages 12-21, high season—$240, instead of $228 (the only fare to rise).
- Package tours through travel agents—$180.

U.S. Seeking Deficit Shift

(Continued from Page 1)

have talked in terms of substantial revaluations (and effective dollar devaluations) in the range of 10 to 20 percent. Foreign exchange experts say such changes in this higher range would be needed if the improvements projected by Mr. Connally are to be realized.

The Japanese Finance Minister, Mizio Mizuta, was said to have told the meeting that while Japan appreciated that a major realignment of currency values was necessary, including gold, the Japanese economy could not stand up to a substantial revaluation of the yen.

All the members of the Group of Ten except the United States have urged an outright dollar devaluation through a modest increase, say 5 or 10 percent, in the price of gold. The official posture of the United States is to oppose such a change. But there is growing conjecture in Europe that this is negotiable.

When asked by newsmen after the meeting about the gold price, Mr. Connally volunteered no new commitment but said simply, "Our position on this subject is well known."

Town in Cambodia Destroyed During Battle for Liberation

(Continued from Page 1)

Peng An in the untouched outskirts of the town agreed with other villagers' accounts that Kompong Thmar had been destroyed by napalm bombing.

But the commander of the 6,000-man brigade that is still pushing north of here, Lt. Col. Ith Suong, said in an interview at Baray, a few miles south: "The houses were burned by the enemy and not by the bombs. The bombs were dropped only here," he said, pointing to the eastern section of Kompong Thmar on his field map.

Invaluable Air Support

"The rest was burned in hours of explosions from enemy ammunition that was stored in the town. But air support is invaluable to us," he added.

Some of the air support comes from Cambodian T-28 propeller-driven bombers based at Phnom Penh, Col. Suong said, but much of it—five or six missions of two or more planes each almost every day in this operation alone—comes from American A-37 light attack bombers based in Vietnam.

Col. Suong has a sergeant who speaks English with him to help call in U.S. Air Force forward observation planes from Bien Hoa Air Base, outside Saigon, and then direct air strikes on the targets the Cambodians on the ground want hit.

Some of the Cambodians fly in the back seats of the observation planes with American pilots, he said. Such assistance according to officials in Phnom Penh is part of the authorized American military aid program here. Congress has prohibited Americans from serving here as advisers or combat troops.

There are none with the 16,000 Cambodian troops who started moving north Aug. 30. For the most part they have encountered little resistance from the Communists, although according to American military officials in Phnom Penh there are elements of two North Vietnamese regiments, several thousand men, in rubber plantations to the east of the highway.

This week, the government escorted Cambodian and foreign journalists not to Kompong Thmar, but to Baray, where the villagers pointed out mass graves of men said to have been killed by the Communists during their occupation.

"The people help us very much," Col. Suong said today. "They tell us where they have seen the Communists and we go after them and fire artillery at them."

Urges Prison Reform

Muskie Asserts Attica Sho... 'The Failure of Both Pa...

By David S. Broder

SAN JUAN, Sept. 15 (WP).—Sen. Edmund S. Muskie, D., Maine, told the nation's governors last night that the Attica prison shootings showed "the failure of both parties' recent leadership to solve the problems of America."

In an emotionally worded address prepared for the state banquet of the 63d national gov... conference, wi... today, the undeclared p... hopeful called for "a commitment of our vast ... to reform the prisons ... the poverty that he ... men into crime.

Sen. Muskie flew ... Rico last night with ... written speech, which ... he had decided to ... of the planned addres... nomic policies and ... relations.

Controversy Grows: Who Slew Nine?

(Continued from Page 1)

uprising by about 1,200 of Attica's 2,200 convicts. Nine hostages were slain Monday during the barrage of bullets and tear gas and another guard died Saturday of injuries suffered when he was beaten by prisoners when the riot began Thursday.

In last night's report, his first since the prison was retaken, Mr. Oswald said, "Several corrections officers and other individuals who viewed this action positively stated that they had seen hostages drop as their throats apparently were being cut."

Two hospitalized hostages were known to have slashed throats, he said.

"Hundreds and hundreds of weapons," including homemade bombs, swords, spears, baseball bats with spikes protruding out of them, and steel pipes were found, he told newsmen.

"In summary," Mr. Oswald said, "it is possible from all these reports, rumors and facts that some unauthorized reports were made to the effect that all hostages had died of slashed throats."

The reports of throat-slashing first were given out by a Correction Department spokesman at about noon Monday, two hours after the prison was stormed.

Mr. Oswald said he never told newsmen the hostages died of slashed throats. Yet newsmen agreed that during a tour of the prison Monday, Mr. Oswald said at least twice that hostages died when their throats were slashed by the rebel convicts.

Coroner's Examination

Earlier in the day, Dr. John F. Edland, medical examiner for Monroe County, said his office examined eight of the hostages' bodies and the autopsies revealed only one showed any signs of neck wounds. He described it as a "small wound in the back of the neck" and claimed most of the wounds in the bodies were made by bullets.

Dr. Edland added that some of the hostages had been shot "once, some as many as five, 10, 12 times... with two types of missiles, buckshot and large caliber missiles." Many were shot at, he said, from what he believed was "a fair distance."

Officials have said their sharpshooters went into action only when prisoners slashed the throats of hostages.

Asked about reports that one guard had been castrated, Dr. Edland said: "None of the bodies were mutilated except by gunshot and stab wounds."

Assistant Correction Commissioner Robert Fosen issued a statement yesterday saying there had been eyewitnesses to the cutting of hostages' throats.

Mr. Fosen, who said he had not yet seen the autopsy reports, declared: "We have eyewitnesses who saw the hostages' throats cut, and we believe their reports... We have confirmed reports that the prisoners had zip guns [home-made, one-shot weapons].

Rockefeller Defends Force

NEW YORK, Sept. 15 (Reuters).—New York Gov. Nelson Rockefeller today defended the use of force to crush the Attica riot.

"I don't see how I could have done any differently," he told a press conference here. He said new facts had emerged about the mutiny but refused to give details.

"You know," he told journalists, "under the heat of the situation as existed, tragedies do develop."

This was an apparent reference to the post-mortem findings that the nine hostages died from gunshot wounds.

Gov. Rockefeller, who has been praised by President Nixon but attacked by liberal and radical politicians for his handling of the situation, said that his going to Attica, as requested by mediators, would not have helped achieve a peaceful settlement because the rioters' position "had hardened, not softened." The White House reaffirmed today that Mr. Nixon still supports Gov. Rockefeller's actions.

Meanwhile, Attorney General John N. Mitchell termed the prison revolt "most unfortunate" and said he had received no indication of a conspiracy to cause trouble in the nation's prisons.

He said that while the federal penal system was "better than in some states," he noted that criminal justice was "more attuned to the 18th and 19th centuries."

PAN AM® The Home Team

We'll pick you up and take you home from 30 different cities in Europe.

That's direct service from more European cities to the U.S. than the next 3 airlines combined. It includes Pan Am® 747s from London, Paris, Amsterdam, Brussels, Frankfurt, Vienna, Rome, Lisbon and Barcelona.

And not just to New York: we have 747s and 707s to 13 U.S. cities in all. East Coast, West Coast and in-between.

When you're ready to head home, just give us a call at any one of our 41 offices in Europe. We can help with all the arrangements, take care of all details, through our worldwide PANAMAC® computer system.

We look forward to welcoming you aboard. From anywhere in Europe.

Mansfield to Attempt Again To Cut US. Forces in Europe

By John W. Finney

WASHINGTON, Sept. 15 (NYT) —Sen. Mike Mansfield, D., Mont., acted upon the current international economic difficulties yesterday as a reason for renewing his legislative effort to force a reduction in American forces stationed in Western Europe.

The majority leader announced to the Senate that, "at an appropriate time in connection with an appropriate bill," he would introduce an amendment calling for a "substantial reduction on a gradual basis" of the 310,000 troops assigned to the North Atlantic Treaty Organization in Western Europe.

A similar Mansfield amendment, calling for the American force to be halved by the end of this year, was defeated by a 61-36 vote by the Senate in May after it ran into strenuous White House opposition.

Since that defeat, Sen. Mansfield has been waiting for a new economic crisis to reopen the NATO troop commitment debate. He believes he has found that issue with the current international monetary difficulties that at least in part, he argues, have grown out of overseas military expenditures, such as in NATO.

Outcome Uncertain

Sen. Mansfield's intention is to offer his NATO troop reduction amendment to the military procurement bill now before the Senate, thus forcing another showdown with the administration probably later this month. Whether Sen. Mansfield can prevail with his modified, less drastic amendment is still uncertain.

But his associates believe that recent economic developments may change the votes of some influential senators, such as Hubert H. Humphrey, D., Minn., who last spring defended the administration's position against any reduction in the NATO force.

In a report on his recent trip to Europe, Sen. Mansfield told the Senate that the "urgent economic salvage operations" undertaken by the Nixon administration "underscore" the necessity for revising an "outdated" NATO policy and reducing "excessive government expenditures in NATO, which tend to erode the financial position of the United States."

Sen. Mansfield disputed the hope expressed by some administration officials, such as Treasury Secretary John B. Connally jr., that as part of an international economic program, some of the allies would assume a greater share of the defense burden. Rather than any increase in the European contributions to NATO, he said it was "not farfetched to anticipate further reductions in the present European effort."

Reluctance Cited

"The reluctance of the European nations to take over any major part of the heavy U.S. burden in NATO is part and parcel of the present mood in Europe," he said, which is "one of détente and peace, not of confrontation and war."

NATO, he complained, continues to "engage in exercises designed for an era of cold war while the climate in Europe warms to the prospect of an all-European peace settlement."

Meanwhile, he said, "NATO has continued to be overstaffed, overmanned and overfinanced by the United States long after the Western Europeans have gained the capacity to play the preponderant part in whatever conventional defense they may deem necessary for their security."

In addition to a substantial reduction in the American force, Sen. Mansfield proposed that a European be named the next NATO commander, that a "multinaval" NATO force be substituted "for the conspicuous and overwhelming presence of the Sixth Fleet" in the Mediterranean, and that NATO gradually be converted to a "standby status," ready for "prompt remobilization in the event of emergencies."

tennis Joins aird Drive to xtend Draft

WASHINGTON, Sept. 15 (AP). Secretary of Defense Melvin Laird and the chairman of the Senate Armed Services Committee joined forces yesterday in effort to secure passage of draft-extension bill.

ngers facing national security the bill is not passed soon. Mr. ird sent the Joint Chiefs of aff and civilian heads of the my, Navy and Air Force to ngress to meet with Sen. John nnis, D., Miss., who, as Armed rces Committee chairman, is ding the Senate fight for the ction before's passage.

After meeting with the officials, Sen. Stennis told smen that the quality of recruits has dropped sharply ce the draft law expired ne 30.

Thirty-six percent of Army its are in the lowest accept- category of intelligence and itude, he said, and 37 percent e not graduated from high ol.

Air Force Drop

The Air Force, which he said pects to fall 7,000 men short its quota by Jan. 1, reports at recruits with high school lomas have dropped from 96 cent to 84 percent.

Sen. Stennis said the Navy is the same situation and exits to attract only 62 percent its quota; "the very best" of its quota.

Sen. Stennis said that he is carried about chances of the bill, which is scheduled for Senate tomorrow.

The combined group that is against it will show voting ength," Sen. Stennis said.

If the Senate should table or commit the House-passed compromise, he said, "I don't know who drew could ever get back a bill could pass."

Pentagon aides said that the buying effort also reflected Mr. rd's fear that the bill may be deep trouble that could result a serious manpower shortage the armed forces.

S. Ear Doctor oes to China to each Technique

HONG KONG, Sept. 15 (NYT). Samuel Rosen, a 74-year-New York City ear specialist, two decades ago devised an ration that cures a certain of deafness, left here for Communist China yesterday to his operation and developments in the treatof hearing deficiencies in People's Republic of China.

Dr. Rosen, who is accompanied his wife, was invited to China the Chinese Medical Associa- He said he expected to at least a month in the ple's Republic.

He took with him a complete of the equipment and instruments needed for his operation, which involves an incision to tedy rigidity that develops in stapes of the middle ear and vents this tiny bone from smitting sound vibrations to audio nerve.

Since he developed his operain 1953, Dr. Rosen has visit- countries demonstrating the nique and its effectiveness.

Yevtushenko To Visit U.S. In January

WASHINGTON, Sept. 15 (WP).—Soviet authorities have agreed to permit the poet Yevgeny Yevtushenko to visit the United States in the new year.

Embassy officials in Washington confirm that the controversial poet will visit the United States as a guest of Doubleday & Co., Inc., Mr. Yevtushenko's American publisher.

The visit had been originally scheduled for October, when a new book of Mr. Yevtushenko's poems, titled "Stolen Apples," will be published by Doubleday. A spokesman for Doubleday said the trip was postponed for unspecified reasons until January.

Doubleday officials said they were arranging a lecture tour for Mr. Yevtushenko, who is expected to stay in America about 45 days. He made a tour of Latin America this summer.

Mr. Yevtushenko, 38, whose trips to the United States in 1963 and 1966 made him popular with college audiences, is one of the most compelling representatives of the Soviet liberal intelligentsia. His foreign travel was restricted after he criticized the Soviet-led invasion of Czechoslovakia in August of 1968 and opposed the expulsion of Nobel prize-winning novelist Alexander Solzhenitsyn from the Soviet Writers Union in 1969.

Seen as Opportunist

Although his liberal stand has made him popular in certain quarters both at home and abroad, Mr. Yevtushenko is regarded by U.S. analysts as an opportunist mainly concerned with maintaining his privileges. Mr. Yevtushenko's criticism of Soviet policies is an important part of his appeal that also makes him an effective advocate of the regime, these analysts said.

U.S. officials say Mr. Yevtushenko's trip seems to be part of Moscow's fresh efforts to court Western liberals and to undercut adverse publicity created by the Solzhenitsyn affair. During his foreign travels Mr. Yevtushenko has proven to be a skillful advocate of Soviet policies, which he presents in an attractive and somewhat off-beat way.

Appeal by 8 Liberals

Russian Dissidents Smuggle Filmed Protest to the West

By Richard Reston

LONDON, Sept. 15.—The first underground film made by Soviet intellectual dissidents and members of persecuted minority groups has surfaced in the West.

The film records the brief appeal of eight Soviet citizens who are involved for differing reasons in the Russian human rights movement. Their remarks are meant to draw the attention of the outside word to the widespread abuse of civil liberties inside the Soviet Union.

It is a significant document mainly because it shows a growing boldness among critics of the Soviet regime. It also emphasizes an increasing tie between intellectual dissidents and persons who feel deprived as members of minority nationality groups.

This latest protest to reach the West covers several different problems ranging from lack of individual freedom to the harsh treatment of political prisoners placed in mental institutions. It raises such other questions as the difficulties now faced by Soviet Jews trying to emigrate to Israel.

First Protest Film

For more than three years now protests of this sort were circulated in the Soviet Union and then to the West in the form of written petitions. The use of film and recorded voices adds a wholly new dimension to the limited but persistent Soviet protest movement.

This particular group of civil rights activists produced the film in Moscow some months ago. It was then sent to the West secretly. At the moment, William Cole, a former Moscow correspondent with the Columbia Broadcasting System, is processing the film for possible viewing in the United States.

If the film is shown to Western audiences, it could mean lengthy prison sentences for the participants. It has reached the West at a time when the Soviet secret police is attempting to stamp out precisely this type of protest.

Mrs. Zinaida Grigorenko, wife of a civil rights leader, appears in the film to plead once again for the release of her imprisoned husband, a former general in the Soviet Army.

Persecuted 10 Years

"My husband, Pyotr Grigorenko... has been persecuted for 10 years for his beliefs. In that period, he was twice committed to a psychiatric ward. That is the most frightful thing that can be conceived for a normal healthy person," she says.

"My husband is condemned to solitary confinement where he is not even allowed to have a pencil or piece of paper to write on, where they order him to stand like a stone statue," she says. "That means either physical death or madness... People, help me to save my husband, to save those who, like my husband, are suffering for their opinions."

Alexander Yesenin-Volpin, a mathematician, poet and son of a famous revolutionary poet, says in the film:

"When we come to discuss civil rights, which have not yet been properly recognized in the Soviet Union, I would put in the first place the freedom to leave the country, along with the right to return to it at will."

Serana Museyev identifies himself as a member of the Crimean Tatars, who were deported from their Black Sea homeland by Stalin during World War II. The Tatars are seeking to return to the Crimea but the authorities will not let them.

Tatar Situation

"Those Tatars who take part in our national movement are being put on trial, sentenced to various terms in prison, excluded from schools or not permitted to take their degrees," Mr. Museyev says.

Anatoly Krasnov-Levetin, a well known religious writer who has been arrested several times, says:

"I am here to help people, to appeal to everybody who has the same misfortune as I have... I believe that there are many like me in the world and that, if they are joined together, they will be able to help all those who are suffering for their beliefs."

Since the film was made, Mr. Krasnov-Levetin has been arrested.

A Soviet Jew, Galina Ladizhynskaya, talks of the plight of her people in the Soviet Union.

Chief Dissident

The film ends with the comments of Pyotr Yakir, the titular head of Moscow's intellectual dissidents' community, the son of a famous Soviet general executed in the Stalin purges of 1937 and a man who has spent 17 years in labor camps for his political beliefs.

"Whatever nationality people belong to, whatever their work, they dream of being free people —internally free. And I beg you to regard this little piece of film as just a sample for what is going on in Russia today," he said.

But Anti-Busing Boycott Continues

Attendance Rises in San Francisco Schools

SAN FRANCISCO, Sept. 15 (AP).—Attendance increased slightly yesterday as the city entered its second day of court-ordered elementary school integration, despite a continuing peaceful boycott by parents opposed to busing.

With 50 of 97 elementary schools reporting, school officials said, attendance was up 6.7 percent over Monday's 58.6 percent. There are 50,000 pupils in the system. Normal attendance is about 90 percent.

"We feel that this indicates that more students are returning to classes," Ray Kohtz, school information officer, said. "This, hopefully, will indicate that most students will be in classes by the end of the week."

Victory claims were issued Monday and yesterday by a coalition of parents called WALK—"We All Love Kids"—which was formed to oppose busing of pupils.

"We were overwhelmed yesterday and we're still quite flattered," Sheldon Toor, WALK co-chairman, said.

Bus drivers said, however, that their loads were larger than on Monday when 13,800 of 36,689 pupils assigned to buses actually rode to class.

The boycott among Chinese parents remained the strongest, according to reports from elementary school principals.

The integration order was issued last April by U.S. District Court Judge Stanley Weigel. It was the most sweeping plan yet imposed by a court in the United States.

Michigan Demonstration

PONTIAC, Mich., Sept. 15 (UPI).—Opponents of school busing staged a demonstration today in support of the city's policemen, who are under attack for allegedly doing more to help anti-busing forces than to enforce a court-ordered program.

About 75 persons, most of them white mothers who are keeping their children from school rather than bus them to previously all-black schools, picketed City Hall.

Production at two General Motors plants resumed without incident today. The assembly lines were closed yesterday by a successful worker boycott to demonstrate anti-busing strength.

U.S. Tightens Rules on GI Drug Addicts

WASHINGTON, Sept. 15 (NYT).—Dr. Jerome H. Jaffee, head of the presidential drug addiction office, announced yesterday that military personnel who are found during pre-discharge examinations to be drug-addicted will henceforth be assigned to Veterans Administration hospitals, even against their will.

This was seen as a major step toward screening out addicts before they are released into civilian life. The step was taken, he told a Senate committee, because the existing system of voluntary treatment "was not working as we had hoped."

Between July 1 and Sept. 10, he said, 86,082 servicemen took urine tests and 4,400, or 5.15 percent, showed evidence that they had been taking drugs, mainly heroin. He estimated that among men under 26 years of age another 10 percent had used heroin or other hard drugs experimentally.

During the July 1 to Sept. 10 period Mr. Jaffee disclosed, only 23 servicemen previously identified as addicts volunteered for such transfer.

Ex-Wallace Aide Held on Income Tax Charges

MONTGOMERY, Ala., Sept. 15 (AP).—Seymore Trammell, a close political associate of Gov. George C. Wallace until they severed relations after the 1968 presidential campaign, was arrested yesterday on federal income tax charges.

Mr. Trammell, 50, state finance director during Gov. Wallace's first term as governor and later in the administration of Gov. Wallace's first wife, the late Gov. Lurleen Wallace, was charged with willful failure to report $24,267 in taxable income for 1967 and 1968.

A federal grand jury indictment, returned last Friday but kept secret until Mr. Trammell was taken into custody, also accused him of falsifying his tax returns for the two years.

The former state official, talking briefly with reporters after his arrest, said: "I have the utmost confidence in the judicial system of the United States of America."

Maximum penalty under the indictment is five years in prison and a $10,000 fine on each of the two counts of income tax evasion, plus three years and a $5,000 fine on each count of filing false returns.

2-Pension Plan Is Proposed for Britain by '75

LONDON, Sept. 15 (Reuters). The British government announced plans yesterday to provide two pensions for everybody, starting in 1975.

The proposals call for a flat-rate, inflation-proof income on retirement plus an earnings-related pension worked out between individuals and their employers.

The new policy, outlined in a white paper, aims at making sure people provide for their old age without at the same time placing heavy burdens on the next generation.

From April, 1975, the present stat. benefit—payable at 65 for men and 60 for women—will be protected by law against inflation. Built-in adjustments will take care of the falling value of money.

Sir Keith Joseph, minister of state for social services, said the government was trying to provide fair pensions under a plan that everyone could understand.

Colonel Tells Of Incidents At My Lai Site

Testifies at Trial Of Brigade Chief

FORT MEADE, Md., Sept. 15 (AP).—An Army officer testified today that about noon on the day of the My Lai massacre, he was told of a helicopter pilot plucking a living child from a pile of dead Vietnamese.

The witness also related a second incident where the pilot reportedly told an American officer "his troops better not shoot at him."

Lt. Col. Frederick W. Watke testifying at the trial of Col. Oran K. Henderson, said the report was made by Warrant Officer Hugh C. Thompson, now a captain.

Col. Watke said he then went to the assault force commander, Lt. Col. Frank A. Barker, and told him "that he had to stop the unnecessary killing." As a result, Col. Watke said, Col. Barker went on the radio and ordered a cease-fire and told troops to hold their positions.

Col. Watke, who then commanded an aviation battalion, related the pilot's report:

"Mr. Thompson as well as others approached and told me there was unnecessary killing going on out there. Mr. Thompson told me there were casualties in the My Lai area... of noncombatants and that there were no weapons or web [army] gear.

"Following that, he observed eight people moved across the open and moved into a hut or bunker. They were non-combatants and children.

"The troops were advancing into that point and if they, the Vietnamese, stayed there they would be killed.

Continue to Move

"He found an officer... and confronted him with the fact... The officer informed him he would continue to move. Thompson said he was going to take the people out and his troops better not shoot at him."

Col. Watke then told of the evacuation of the child.

"One of Thompson's crewmen walked among the group of bodies and found a child still alive. He carried the child into the chopper and they took it to Quang Ngai hospital.

Col. Watke said when he reported to Col. Barker "he seemed quite taken by it, concerned. His actions were positive."

Later in the day, Col. Watke said, Col. Barker told him he had not been able to locate the infantry officer on the ground but it was brought out at the trial of Lt. William L. Calley jr. that Calley was the man involved.

Col. Henderson is charged with failing to properly investigate the My Lai incident and carry his report forward to higher headquarters. The charge specifies that he failed to investigate "a confrontation between a helicopter pilot and ground forces of his command."

Col. Henderson was commander of the brigade whose task force assaulted My Lai.

Medina Witness Allowed

FORT MCPHERSON, Ga., Sept. 15 (AP).—The military judge in the Capt. Ernest L. Medina murder trial today reversed his earlier ruling and said a key defense witness, Capt. Robert L. Hicks, could testify.

The judge, Col. Kenneth Howard, had ruled earlier that the testimony of Capt. Hicks could not be admitted as evidence because it was hearsay.

In the absence of the jury, Capt. Hicks had earlier told the court that Lt. William L. Calley jr., had told him after the My Lai slayings that Capt. Medina was surprised to find that civilians had been shot.

After a nearly two-hour closed session in the judge's chambers, the judge announced that defense attorney F. Lee Bailey had convinced him his ruling was in error.

Fire Bomb Fails To Damage U.S. Berlin Barracks

BERLIN, Sept. 15 (UPI).—Unidentified attackers bounced a bottle of flaming gasoline off the fence surrounding an American Army barracks early today, West Berlin police reported.

Police guarding the McNair Barracks said there was no damage. Neither they nor an American Army spokesman had any idea of the motives or identity of the attackers.

In another incident, West German border police said East German border police fired three bursts of submachine-gun fire and four single shots near the Berlin wall at 8:00 a.m.

Later police saw East German border guards fish an apparent would-be refugee out of the River Spree, which runs near the wall. They did not know whether the victim was injured or whether it was a man or a woman.

East German police have opened fire several times on would-be refugees since the signing of the four-power draft agreement on Berlin, Sept. 3.

Bomb Explosion in Nightclub In Saigon Kills 8, Injures 16

SAIGON, Sept. 15 (UPI).—A plastic bomb explosion shattered a nightclub in the heart of Saigon tonight. The blast killed at least eight persons in the worst terrorist attack in the capital in more than two years. None of the dead was American.

At least 16 American soldiers and Vietnamese were seriously wounded when a 10 to 15-pound plastic bomb was tossed through the club windows, U.S. military spokesmen reported.

The blast destroyed at least 70 percent of the two-story Tu Do nightclub, a rock and roll club catering to well-to-do young Vietnamese. It is located one block from the Caravelle Hotel, where U.S. Sen. George McGovern, D., S.D., is staying.

50 Persons in Club

The bomb exploded about 20 minutes before closing time when about 50 persons were inside the club, on the bar and restaurant-lined Tu Do Street, Saigon's main thoroughfare.

Casualties were the highest since terrorists blew up the U.S. Air Force language school in Saigon Aug. 7, 1969, killing 12 persons and wounding 67, including 28 Americans. Terrorists in April this year blew up the CBC nightclub in Saigon, killing two persons and wounding 40.

Some of the victims of tonight's incident were passersby and street vendors, hit when the blast blew out an entire wall of the club.

The Tu Do nightclub is a popular haunt for American servicemen and is one of the few in Saigon providing live entertainment with go-go girls. It is across the street from the election information center established for the Oct. 3 presidential election.

Earlier, a gasoline bomb was thrown at an American car in the city as a spate of anti-American violence continued. The Vietnamese driver of the car was injured.

Two American soldiers who were standing in front of the Tu Do club said there was a street altercation a few minutes earlier involving an American and a taxi driver. U.S. military police had been called and were on the scene when the blast occurred.

One of the soldiers said the American was "chased" into the club by a group of 15 to 20 Vietnamese youths.

A few minutes later, just after the military police arrived, the blast went off. It was not known if it had any connection with the street incident, however.

Hanoi Withdrawal Reported

DA NANG, Sept. 15 (AP).—Half the North Vietnamese forces threatening South Vietnam's northern provinces have pulled back across the Demilitarized Zone and the Laotian border, a South Vietnamese general said today.

Lt. Gen. Hoang Xuan Lam attributed the withdrawal of nearly two divisions—approximately 15,000 men—to the Communists' apparent shortage of supplies. "Now we are feeling the benefits of the Laotian campaign," he said, "and the floods up North have set them back another six months, maybe a year."

Ellsberg Alleged To Possess More Secret U.S. Files

LOS ANGELES, Sept. 15 (UPI).—Daniel Ellsberg has stored in a warhouse another large cache of documents, including government files with security classifications, an affidavit filed in U.S. District Court alleged yesterday.

The affadavit was submitted in support of a government attempt to subpoena the records of the former Rand Corp. employees, who has admitted "leaking" the Pentagon papers to the press.

Mr. Ellsberg's lawyers went to court today seeking to quash the subpoena. Federal Judge William M. Byrne jr. said he would make a ruling Monday.

The government affidavit said Mr. Ellsberg began storing personal papers and government documents as long as 18 months ago. A government lawyer said that they belong to the United States, that "many" are classified, and that Mr. Ellsberg has no right to retain them.

The grand jury which has already indicted Mr. Ellsberg for unauthorized possession and use of the Pentagon papers obtained the subpoena for the additional files.

North Korea Demands Retreat by U.S., UN

HONG KONG, Sept. 15 (Reuters).—North Korea has demanded the dissolution of the United Nations commission for Korea and the immediate withdrawal of all troops under the UN flag from South Korea, the North Korean news agency has reported.

A government statement said the occupation of South Korea by the "U.S. imperialist aggression army" was the main obstacle standing in the way to the unification of the divided country, according to the agency. The UN commission for the unification and rehabilitation of Korea "is a tool of aggression concealing the U.S. imperialist colonial enslavement policy," it continued.

Rising Waters Flood Camps Of Refugees in W. Bengal

BONGAON, India, Sept. 15 (Reuters).—Monsoon floods swirled through crowded refugee camps in the West Bengal state today, bringing fresh dangers for hundreds of thousands of refugees.

The rising waters of rivers threatened fresh devastation in northern and eastern India, where floods have so far left more than 500 people dead.

One area near the East Pakistan border with a refugee population of 250,000 and an Indian population of 185,000 has been turned into a vast lake above which an occasional roof or treetop can be seen. Out in the middle of the lake people were huddling on isolated pockets of dry ground.

15 Feet of Water

At least 25 of the 32 camps in the area have been completely or partly submerged, some of them under as much as 15 feet of water.

More than 20 million people have been affected by the floods in the north India state of Uttar Pradesh and damage to crops may reach 2 billion rupees ($264 million), according to officials.

Latest reports of the destruction in the state say that more than 540,000 houses have been destroyed.

In Bongaon, about 50 miles northeast of Calcutta, an official said 700,000 of the 1,100,000 people in the area were directly hit by the floodwaters and many of the refugee camps would have to be built all over again.

The spokesman said: "We're going to have to start all over again building the camps. There is no escape. We'll need basic structure material, roofing, new latrines, new tube well machinery and massive transport.

"We'll also need huge quantities of medicine, lime, bleaching powder and disinfectants when the floods subside. That will be the really dangerous time. But when the water subsides we won't be able to build new latrines and tube wells fast enough. People will be using polluted water for drinking and domestic purposes," he said.

"A cholera epidemic is not unlikely," he added.

Kosygin Held Optimistic After Accord on Berlin

MOSCOW, Sept. 15 (UPI).—Soviet Premier Alexei N. Kosygin told British opposition leader Harold Wilson on Monday that the Soviets consider Berlin to be the most important foreign policy issue at present, British sources said today.

The sources said Mr. Kosygin told Mr. Wilson that the Soviets expect the recent four-power agreement on Berlin will serve as a basis for improved relations with the West.

Mr. Wilson, the former Labor prime minister, is on a five-day visit to the Soviet Union that included four hours of talks with Mr. Kosygin on Monday.

The sources said Mr. Kosygin seemed completely sincere in his optimism concerning Berlin, expressing the conviction that the agreement will become a basis of East-West trust that will widen to other issues.

Yahya Aide Is Knifed, He Survives

Ex-Regime Employee Held as Assailant

RAWALPINDI, Sept. 15 (Reuters).—A man drew a knife and stabbed President Yahya Khan's economic adviser, Mian Muzaffar Ahmed, in his office here today and then was quickly overpowered and arrested, according to officials.

Mr. Ahmed, 54, was rushed to a hospital with an abdominal wound but doctors said he was out of danger.

Police identified the alleged assailant as Mohammed Aslam Qureshi, from Sialkot, southeast of Rawalpindi, near the Indian border.

Dismissed From Post

Government officials said the assailant, an air-conditioning supervisor, was recently dismissed from the government's Capital Development Association.

Mr. Ahmed visited Western capitals last May after Pakistan slapped a six-month moratorium on World Bank consortium debt repayments.

He was head of the Planning Commission until President Yahya dissolved the cabinet in February.

Mr. Yahya is now chairman of the Economic Planning Commission with Mr. Ahmed as his adviser.

Meanwhile, Mr. Yahya returned home by air today from Tehran after 24 hours of talks with the shah of Iran on bilateral, regional and international affairs, including Pakistan's conflict with India. The shah stressed Iran's solidarity with Pakistan and the two leaders renewed assurances of continued support, a communiqué said.

HARD HATS FOR A HARD JOB—Ann Tavares (left) and Angelina Watkins starting to work as stevedores in Providence, R. I., the first women in such jobs on the Municipal wharf there that anyone can recall. Both are 37, both are the daughters of longshoremen.

Tapline Sabotaged; Jordan Blames Syrian Infiltrators

AMMAN, Sept. 15 (UPI).—For the second time in six days, saboteurs blew up the Trans-Arabia oil pipeline, an Interior Ministry spokesman said today.

The saboteurs crossed 13 miles into Jordan from Syria to blow two holes, four feet by two feet, in the Tapline late last night, the spokesman said.

An official of the joint Saudi Arabian-American company, Aramco, which operates the pipeline, said it will take two to three days to repair the breaks.

Oil officials said the cost of a pipeline stoppage was around $540,000 a day.

The Tapline stretches from Dhahran, Saudi Arabia, to the Mediterranean seaport of Sidon, in Lebanon, passing through Syria and Jordan.

No One Claims Act

Several times in the last two years it has been sabotaged by Palestinian guerrillas. Though such leftist groups as the Popular Front for the Liberation of Palestine (PFLP) are dedicated to overthrowing King Hussein of Jordan, no guerrilla group claimed responsibility for the last two incidents.

Unknown persons last Wednesday blew a hole in the Tapline just inside the Syrian-Jordanian border. It took three days to repair it.

The spokesman's statement today that saboteurs crossed from Syria was the first official Jordanian claim involving Damascus since relations were severed between the two countries Aug. 12 following a series of border clashes between Jordanian and Syrian troops.

Following the hijacking of a Jordanian airliner by a Palestinian guerrilla last week, Prime Minister Wasfi Tell said that in its dealings with friend or foe, Jordan would "return good for good and evil for evil."

Rabbi Kahane Establishes a Home in Israel

TEL AVIV, Sept. 15 (NYT).—Rabbi Meir Kahane, leader of the militant Jewish Defense League in the United States, settled in Jerusalem today.

However, he said over the Israel state radio today that he will commute between his new home in Jerusalem and New York, spending alternate months in each location.

He entered Israel last night as a "temporary resident," but he said that he intended to change later to the status of an immigrant.

His wife and children preceded him to Jerusalem by several weeks and moved into an apartment that the family purchased.

An unknown number of associates and supporters of the Jewish Defense League also preceded the leader here and conducted initial organizing efforts. Rabbi Kahane indicated in his radio interview that he would take a hand in forming an Israeli branch of the league.

He disclosed that an office in Jerusalem had been rented 10 days ago and he said the Israeli branch would serve as a "bridge between groups and organizations."

He indicated that he would campaign among American Jews to follow his example and settle in Israel.

"We are pushing strongly for Aliya [Jewish immigration]," he declared. "We're campaigning in every community and on every campus."

The league, he said, will also continue its harassment of the Soviet Union to induce it to permit Jews to leave for Israel.

Other Arms in Works

Israel Designing, Assembling Jet

By William Beecher

TEL AVIV, Sept. 15 (NYT).—The Israelis are designing and putting together three prototypes of their own jet fighter-bombers, according to well-placed sources here.

The models are under construction and the first operational version of the plane—dubbed the Super Mirage because it is derived from the family of French-built Mirages—is expected to reach the Israeli Air Force in small quantities in about two years.

The engines to be used, principally American, are being purchased, according to knowledgeable sources. But most of the bodies are being built here.

The sources said that the first prototype would be tantamount to a Mirage-5, assembled here from parts spirited out of France after an embargo on delivery of 50 of the modern aircraft was imposed by President Charles de Gaulle in 1967.

Second Prototype

The second prototype, which, it is said, has already been flown, will have an enlarged Mirage-5 body and the American J-79 jet engine that powers the F-4 Phantom. It will not contain advanced radar and other equipment necessary for efficient performance in bad weather and at night, the sources said, but bad weather is not common in the Middle East.

The third prototype, the sources said, is destined to contain Israeli-developed radar and other gear for all-weather performance.

Advanced planes are only one of many projects for defensive weapons being pressed here, whatever the cost, to reduce dependence on the political vagaries of outside supply.

The projects include an automatic rifle, a tank of advanced design, a ground-to-ground missile with a range of more than 300 miles, a television-guided air-to-ground missile, gunboats, advanced anti-personnel radar and a modified barrage rocket.

Missile Exports

Another Israeli-developed weapon, the low-flying Gabriel ship-to-ship missile, is being exported. The first customer, the sources said, is Singapore, which plans to mount it on fast gunboats. Iran is among a number of countries exploring purchase.

The automatic rifle, called the storm rifle, informants said, was designed by Uzi Gal, who developed the Uzi submachine gun. It is said to fire the .256-caliber bullet.

The sources were extremely reluctant to discuss the new tank, except to say that the government had just decided to go ahead with a development program expected to take about five years.

Successfully Tested

The ground-to-ground missile, known as the Jordan, has been successfully test-fired, the sources said. At one time Dassault cooperated on the missile, which can carry either a conventional or a nuclear warhead—Israel has not tested a nuclear device but is believed capable of doing so.

According to the sources, the air-to-ground missile, called Luz, has a range of 18 miles and has a TV camera in its nose cone, with a monitor screen in the launching aircraft.

The projected gunboats, the informants said, are larger than present missile boats but are not expected to carry missiles. They are being designed to operate out of the southern ports of Elath and Sharm el-Sheikh to keep the Gulf of Aqaba and the Red Sea open to ships destined for Elath.

Cheaper Version

The anti-personnel radar is being designed primarily for use along Israel's long borders to provide warning of infiltration by guerrillas. The sources described it as excellent and much cheaper than similar devices developed by the United States.

Working with Soviet Katusha rockets captured during the 1967 war, Israeli weapons specialists are said to have improved the accuracy of the 240-mm mobile version to the point where a 12-rocket barrage would have a dispersion of only about 150 yards, considered highly accurate for unguided rockets. The principal improvement, the sources said, is in the fins.

Hussein Tells Nation Jorda... Is Strong, Stable, Confiden...

BEIRUT, Sept. 15 (NYT).—King Hussein said today that a year after the Jordanian civil war, his country "is strong, stable and confident of its future."

The king served notice on the Palestinian guerrillas and on the Arab world at large that "any forces stationed on our territory must be under our command."

"Only those who will work with us along a clearly defined course will be allowed in our country... We shall never again allow on this soil those who had tried to destroy this country and spread chaos," he declared.

Winning Force

The monarch spoke to troops of the Third Armored Brigade, stationed on the armistice lines with Israel in the Jordan Valley. He chose to be with the brigade on the first anniversary of the war with Palestinian guerrillas because the brigade's bedouin forces were the ones who scored the victory in last year's fighting with the Palestinians.

The king's speech, which was broadcast by the Amman radio, was interrupted by soldiers' chants of "Long live King Hussein," "Down with the traitors" and "We are your men, Hussein, to the last drop of our blood."

Hussein said that he and the Jordanian Army won "because God is on our side and because we are right." He said the 55,000-man army "has been my life, for which I sacrifice everything."

The king promised to provide the army with all it needs in arms and equipment. "What I expect of you is rigorous training for the day when we can liberate our occupied land." He condemned those who say that "the liberation of Arab land is a Palestinian mission." It is Palestinian cause "but the of the entire Arab nation emphasized.

Amman Executes Two Guerrillas

AMMAN, Sept. 15 (AP).—Two guerrillas belonging to the Marxist Popular Front for the Liberation of Palestine were hanged at Amman Central Prison yesterday, the government announced.

They had been found guilty by court-martial of murdering a government employee last March. King Hussein approved the death sentence, a government spokesman said.

Their deaths brought to 12 the number of guerrillas executed in Jordan this year after courts found them guilty of murder or sabotage.

Some French Schools Struck on Opening Day

PARIS, Sept. 15 (IHT).—French schools opened today, but many students stayed home because of a teachers' strike in secondary schools. Some students were met by non-striking administrative personnel.

Primary schools were not affected by the secondary-school strike, planned as a one-day protest over pay and working conditions.

Tel Aviv Police Blame Criminals For Bombing

TEL AVIV, Sept. 15 (Reuters).—Rivalry within the Tel Aviv underworld apparently was responsible for a pre-dawn bombing today in which a nightclub was destroyed, police said.

Several adjoining offices and shops were damaged after an estimated 4.4 pounds of explosives were ignited in the Pigalle nightclub on the seafront. Several passersby were slightly injured but there were no other casualties.

Several other nightclubs have been fire-bombed during the last month.

The police dismissed Arab guerrilla claims in Beirut that Palestinian commandos were responsible for today's incident. Israeli sources said that a guerrilla organization in Beirut apparently picked up reports of the fire from early morning newscasts and adopted the incident as one of its own exploits.

Last Preparations Under Way for Amchitka Blast

JUNEAU, Alaska, Sept. 15 (AP).—The U.S. Atomic Energy Commission says preparations for an underground five-megaton nuclear test on Amchitka Island are proceeding on schdule, despite strong opposition from government leaders and others, and speculation that President Nixon may cancel it.

AEC spokesman David G. Jackson said drilling of the 5,875-foot shaft has been finished, and workers are "making the final preparations for the test."

Mr. Jackson said the test is "tentatively" scheduled for early October. "We will announce a date in the future, he said, "but it would not be announced until we have authority to do it, and that authority would come from the President."

Senate and House conferees in Washington agreed yesterday on a provision in a public works appropriation bill that would forbid detonation of the device, before May 31, 1972, without Mr. Nixon's direct approval.

But Mr. Jackson said that "that's the way it is on any major test . . . that the President has to give his approval."

The blast is designed to test the warhead of the Spartan missile, a part of the Safeguard anti-ballistic missile system. Both Canada and Japan have protested the blast.

14 Dead or Missing As Floods Strike Pa.

CHESTER, Pa., Sept. 15 (UPI).—At least 14 persons were reported missing or drowned yesterday in floods that inundated two cities to a depth of 15 feet and forced more than 500 families from their homes.

The flood waters invaded Philadelphia suburbs, after four days of rain spawned by the tropical storm called Heidi.

Boston Mayor, Foe of Busing Face Runoff

BOSTON, Sept. 15 (AP).—Mayor Kevin H. White and a fellow Democrat, Rep. Louise Day Hicks, captured the two nominations for mayor in a six-candidate nonpartisan preliminary election yesterday.

Mayor White and Mrs. Hicks thus face a November runoff in the 1971 rerun of their mayoral battle of 1967. In that voting Mrs. Hicks led Mr. White by 12,933 votes in the September balloting, but lost by 12,522 votes in November.

Issues in this campaign centered on Mr. White's record on school busing to achieve racial balance, which Mrs. Hicks opposes.

Moderate Wins in Baltimore

BALTIMORE, Sept. 15 (AP).—William Donald Schaefer, a 49-year-old white moderate, won the Democratic nomination for mayor of Baltimore yesterday, ending the chance that a black could capture the top job this year in the nation's seventh largest city.

Mr. Schaefer, the City Council president, easily defeated five other candidates, including two major black contenders, to win the right to face Dr. Ross Z. Pierpont, a former judge who is the Republican nominee, in the November general election.

Egypt Sets Up More Missiles, Israel Reports

TEL AVIV, Sept. 15 (UPI).—Egyptian troops are constructing new missile sites, possibly for ground-to-ground missiles, on the front line along the West Bank of the Suez Canal, an Israeli military source said today.

The source said troops holding the Israeli front line on the East Bank of the canal had observed trucks bringing building materials and the structures rising only two miles behind the waterway.

The source said it was a classic Soviet military ploy to build rocket or missile sites in front-line positions to cover the crossing of a water hazard such as the Suez Canal.

The military correspondent of the afternoon newspaper Maariv, reporting that the new sites are to house missiles, said they would have a range of 25 miles into Israeli-held territory in the Sinai.

Neither the Maariv correspondent nor the military source said what type of missile may be launched from the new sites.

New Foreign Minister Named in Iran Shift

TEHRAN, Sept. 15 (Reuters).—Iranian Foreign Minister Ardashir Zahedi has been dropped from the post in a cabinet reshuffle by Premier Amir Abbas Hoveida.

The new foreign minister is Abbas Ali Khalatbari, who had been Mr. Zahedi's deputy.

Mr. Zahedi resigned several days ago, according to authoritative sources, but no announcement was made at the time. The reason for his resignation was not known.

Allon in Norway

OSLO, Sept. 15 (UPI).—Israel's Deputy Premier Yigal Allon arrived here yesterday on a five-day official visit. During his stay he will have talks with Premier Trygve Bratteli and Foreign Minister Andreas Cappelen.

U.S. Envoy Quits

WASHINGTON, Sept. 15 (AP).—President Nixon announced today the resignation of Guilford Dudley jr. as U.S. Ambassador to Denmark. The resignation will be effective Nov. 1. He will return Jan. 1 to his former firm, the Life and Casualty Co. of Tennessee, as chairman of the board.

INTERNATIONAL FILM TV-FILM AND DOCUMENTARY MARKET

24th CINE-MEETING MILAN 22-30 OCTOBER 1971

2 GRAND AWARDS FOR TV-FILMS

The International Film, TVfilm and Documentary Market (MIFED) is an international centre where feature, TV and documentary films are traded on a worldwide scale. Contacts are made there for negotiating agreements in any branch of film production, co-production, financing and the issue of import and export licences.
Its comfortable quarters are provided with all modern facilities and include numerous studios for the projection of cinema and TV films. International telephone, cable, telex and telephoto services are available. Conference rooms and offices. All forms of business and secretarial assistance. Legal and notarial consultants. Medical advice. Dining rooms and bars.
Advance bookings should be made to MIFED by letter or cable before 25 September.

For information and bookings write to: MIFED - Largo Domodossola 1 - 20145 Milano (Italy) - Telegrams: MIFED-Milano ☎ 495.495 - Telex: 33660 Fieramil

The In Group Tapes Television Magazine

By Hebe Dorsey

PARIS, Sept. 15 (IHT).—The other day, the women at ward M. Re...ques Dessange's beauty parlor merged from ...e in for a surprise. As they ...s under the dryer, they were ...nded, instead of the usual ...gazine, a set of earphigs. An ...endant pushed a video cassette ... what looked like an ordinary ...vision set and for the next ... hour, the women watched ...t is said to be the first video- ...ed women's magazine in color. ...riesy of a new company called ...

... has just started but it is ...ady offering a fascinating ...duct. The monthly magazine ... tape is produced by Jeanne ...eau (who got a taste of mag- ...e directing when she did the ...ench Vogue Christmas issue last ..., Christian Gion, a success- ... producer of commercial films, ... Jean-Louis Richard, whom ...s Moreau described with a ...et smile as "my ex-husband."

... In project took shape six ...nths ago. "By temperament," ...s Moreau said, "I'm for new ...s. So we launched this wo- ...'s magazine video cassette in ... hope that, eventually, we'll ... up doing a whole newspaper. ...ur idea was to catch people ... have to sit and wait. That's ... hairdressers were our first, ...ous bet. But, eventually we'll ...nd the service to airplanes ...ve had offers already) and ...r public places."

... circumvent technical prob- ... In imports special sets from ... United States that are leas- ... with the cassettes for 200 ...cs a month. Each subscriber ...ives one magazine a month, ...wo half-hour segments. The ... are already in 150 Paris sa- ... and 200 other French beauty ...ors. This means that In mag- ...e is reaching some 500,000 women—a substantial circulation.

The In team: Jean-Louis Richard, left, Jeanne Moreau, Christian Gion.

As a backbone, In naturally sought advertisers. "No problem," Miss Moreau said. "Advertising agencies are always looking for new outlets." Advertising now takes up 15 percent of the broadcast time and will be limited to 25 percent. Miss Moreau points out that the magazine is "offering a new, fresh approach and a brilliant set of names."

The first edition of the magazine features, in addition to Jeanne Moreau, Françoise Sagan commenting on the last book she read and liked and Simone de Beauvoir giving her outspoken views on abortion in France. The sequence also includes features on fashion, beauty, decoration, films (with clips from the latest Truffaut film), everyday psychology ("You can tell what a man is like from the way he smokes").

At this early stage, the In magazine hits and misses. The fashion sequence, for instance, never gets off a fairly banal plateau. But the abortion session offered heated discussion of women's liberation, an ultra-conservative point of view from Prof. Paul Mellicz and the ultra-liberal opinions of Simone de Beauvoir.

In this sequence, In hit hard. Hearing Prof. Mellicz talk about a "comfortable abortion" (whatever that may be) with a straight face was worth the whole half-hour. Reading about abortion can be a bore; honest comment on such a controversial subject would not be likely to find its way onto the conservative, government-run French television channels. Thus In is offering something unique.

'Reducing' in Plastic Hot Pants

By Judy Klemesrud

NEW YORK (NYT).—There are hot pants and then there are Hot Pants.

The ones with the capital letters are inflatable plastic shorts that have become perhaps the best known—and probably the most controversial—of all the quick-reducing gadgets to besiege the public in the last several years.

The ads are not what you would call modest. Their claim, which many medical experts dispute, is that the shorts are "guaranteed to reduce your waist, abdomen, hips and thighs a total of 6 to 10 inches in just one day or your money refunded."

So far, according to a spokesman for Biophysical Research and Development Corp., the San Francisco-based firm that makes them, more than a million pairs of Hot Pants have been sold since last September, when they were first advertised. Their success has resulted in a rash of imitator products, which, like the original, resemble a pair of Bermuda shorts designed for moonwalking astronauts. (Similar products are sold in Europe.)

For the skeptical, the Hot Pants people will provide names, addresses and telephone numbers of satisfied customers from coast to coast who swear they are more svelte from using the shorts. A team of California doctors, who tested the shorts on volunteers for the Biophysical Research & Development Corp., also backs up all of the inch-loss claims made in the advertisements.

Federal Agencies

However, officials of such federal regulatory agencies as the Food and Drug Administration and the Federal Trade Commission tend to view the claims for the inflatable shorts as little more than a lot of hot air. This opinion tends to be shared by most doctors interviewed, and, apparently, many consumers.

A spokesman for the Special Investigations Division of the United States Postal Service said that because of "many, many complaints from unhappy consumers," the division had begun on Aug. 18 an investigation of the Hot Pants to try to determine if the advertising claims were false. The spokesman said the investigations would take approximately three months. At least one other government agency is also investigating the claims.

The Hot Pants are supposed to work like this: After they are inflated with a hand pump, the wearer performs an extremely rigorous "brief exercise program" during which the heat generated inside the pants is supposed to "melt away inches." Special packets called "thermal packs," which are filled with water, are supposed to supply extra heat for problem areas such as the thighs, hips and waist.

Girl performs prescribed exercises while wearing inflated Hot Pants.

FDA Comment

Dr. Joseph B. Davis, director of the Division of Clinical and Medical Devices for the FDA, is extremely skeptical about the effectiveness of the inflatable reducing shorts.

"Devices sold to reduce body measurements have no useful function as far as losing weight or inches are concerned," he said the other day in his Washington office.

He added that if a person exercised regularly while wearing the shorts, he might notice a possible "general body effect"—as a result of the exercise, not the shorts.

In recent FDA tests on 30 prison inmates, those who wore reducing shorts and followed a program of exercises lost no more than those who did the same exercises without shorts.

Many of the doctors who were interviewed tended to agree with a spokesman for the American Medical Association in Chicago, who said: "Devices of this sort should be emphatically discouraged. It's a pity that some people spend money for them. It's ridiculous to believe that sweating—the production of a watery secretion by the sweat glands—can get rid of fat, which is chemically and physically different from water."

His Creation

The Hot Pants and their predecessor product, the Sauna Belt (an inflatable belt for waistlines only) are the creation of a Californian named Jack Feather, who, until recently, ran a chain of 22 figure salons in the San Francisco area. They are now owned by a firm called Golden Venus.

Mr. Feather and his wife, Eileen, are presently the principal stockholders in Biophysical Research & Development Corp., and also head the company that manufactures a plastic exercise device known as the Mark Eden bust developer.

A Nomad Who Put Schools in Tribal Tents

By Naomi Barry

Believing the ignorance of the Iranian tribes was "dangerous to the country," Mohammad Bahmenbegui campaigned to bring teachers directly to the nomads.

SHIRAZ, Iran (IHT).—There was a giant of a man who decided that the children of the nomadic peoples should learn to read and write and do problems in arithmetic as they wandered the tribal trails. Sounds like a legendary hero in an old Oriental tale, Tractis

Mohammad Bahmanbegui is a big, but in his own time. People all over Iran have heard of him. Few have met him. He is always busy supervising his moving schools in which 30,000 youngsters attend class nine months a year. The schools have become part of the tribal baggage along with the herds, the pots, the shelters, as the families migrate across hundreds of miles seeking the sparse but necessary pasture.

There was a time when organization-oriented officials, no matter how well-intentioned, argued that education could not be provided until the tribes settled down. That Bahmanbegui, born a nomad, has succeeded is proof that an individual can do. His is a story of how one man can do about moving a mountain.

There are about 300,000 tribal people in the province of Fars, the area where Persia emerged. They are sharp and shrewd about handling their tough environment. However, illiteracy among them was almost total, until 1952 when Bahmanbegui began his revolutionary program.

His Tribe

The robust man of authority and tremendous humor, he was born about 50 years ago into the numerically powerful Kashghai tribe (150,000 people). His own education was an accident.

"Historically, the tribes were feudal and autonomous," he explained. "Because they recognized no outside authority, there frequently was trouble. My father was among the trouble-makers banished to Tehran. I was 13 years old. He took me along. I had never seen a city. In Tehran I was forced to go to school. People talk about their brilliance in youth." He roared with laughter. "I was very, very fast. In 10 years I had a law degree. What do you think of my English?"

"Superb," I replied.

"I know," he agreed.

"A government job wasn't interesting enough for me so I went back to the tribes. My friends in the city were amazed. For seven years I roved around, hunting, shooting, riding wonderful horses and had a marvelous time. But I also saw that my people were being absolutely ignored and neglected."

First Letter

Twenty-five years ago he wrote his first letter to the Ministry of Education stating that the tribes needed education because "their ignorance was dangerous to the country." Six years later, his proposals were still wrapped in red tape.

Then Bahmanbegui learned that the shah had told the governor of Fars that something should be done about educating the tribes. The governor went so far as to order a small landing strip to be built in the migration areas so that officials could get a closer look at the situation.

"I doubt if the shah had ever seen my petitions," said Bahmanbegui. "But as a tribal man, I figured it was a time of favorable atmosphere. I started bargaining again, but now I went after three sources."

He convinced the Ministry of Education to forget about university graduates and recruit potential teachers from among the tribal people themselves, since only they were tough enough to stand the life. Because the budget was limited, he badgered the tribal chiefs to supply money for the teacher-training program. One hundred families agreed to contribute $20 a month.

The Point Four program had just begun. "It was the right moment. From them I got the necessary materials. I asked the Point Four director for $1,300 of notebooks, pencils, blackboards, chalk and other materials. Wonderful man. He didn't think it was much."

A Message

Bahmanbegui spread this largesse around like a Persian Santa Claus and didn't care who made scratchy lines over those first notebooks. Meanwhile, he sent a message by grapevine throughout the shifting camps and the temporary villages along the traditional routes that any young man with the slightest rudiments of education was to refer to him to be examined.

The most promising were sent to Shiraz for the ministry's training program. "The first weeks," recalled Bahmanbegui, "we concentrated on improving their reading, writing and arithmetic. Then we taught them how to teach.

"At the end of six months, we sent from Shiraz 79 teachers by foot, by donkey, by jeep, by horse to join up with the tribes. We had established 79 moving schools."

While the trainees were in Shiraz, Bahmanbegui had the task of making sure there was a student body. He covered the vast expanses, going from tent to tent persuading the parents to allow their children to go to school. His sister was the first to offer her children for the experiment.

"When we began, it was impossible to imagine even one girl as a student. Today, we have 1,400 teachers and 200 of them are girls."

I watched Bahmanbegui examine a class of 27 little nomads—aged ten to 13—who had finished five or six years in the tent schools. Each child stepped forward to be tested.

"Who was Archimedes? Where is the source of the River Karoun? If 2/5 of a sum is 10 rials, how much is 1/3 of the remainder?"

The answers came forth smartly and without hesitation. The speed and accuracy with which the youngsters worked out their mathematical solutions on the blackboard were staggering.

There was one small girl in the group. She wore the traditional costume of long flowered skirt, printed apron, and white diaphanous scarf on her dark hair. Parvin was 10, boldly self-reliant, and beautiful.

She was asked the meaning of an esoteric word in Farsi. She gave the right answer and supplied four other words from the same root. Then she declaimed a poem commemorating the day the veil was legally put aside.

"Women of Iran," she began in a ringing voice that provoked shivers. The boys in the class obviously thought Parvin was great and they clapped when she flashed out the right response to a tricky mathematical question.

Sadly enough, only 110 of the 700 qualified applicants could be accepted for the new Tribal High School in Shiraz. Nonetheless, Bahmanbegui had produced his miracle. This modern, state-supported school offering free tuition, board and lodging to children of the nomads is the first all-scholarship high school in Iran.

On the Arts Agenda

The 1971-72 season of the Netherlands Opera opens Friday 7 in Amsterdam with a production of Monteverdi's "L'Incoronazione di Poppea" in an edition by Alan Curtis that seeks to return to the composer's intentions insofar as possible, not only in preparation of score and libretto, but in the use of period instruments and singers versed in 17th-century practice. Gustav Leonhardt is the conductor and Filippo Sanjust stage director and designer. Carole Bogard sings Poppea, Halina Lukomska is Octavia, Nigel Rogers is Nero and the cast also includes Francesca Howe, Paul Esswood, Michel Sénéchal and Philip Landridge. Subsequent performances are Sept. 19, 24 and 27 in Amsterdam and Sept. 21 and 22 in The Hague.

* * *

The Chicago Symphony Orchestra will visit several European cities on its forthcoming tour, with concerts under Georg Solti, its artistic director, and Carlo Maria Giulini. The orchestra's itinerary includes Berlin (Sept. 21 and 22 at the Philharmonie during the Berlin Festival), Paris (Oct. 2 and 3 at the Théâtre National Populaire), London, Milan, Vienna, Brussels, Stockholm and Helsinki.

* * *

Besides the two concerts of the Chicago Symphony Orchestra on Oct. 2 and 3, other musical programs at the Théâtre National Populaire next month include two concerts Oct. 13 and 14 by Mikis Theodorakis and a seven-day jazz program entitled "Newport at Paris," from Oct. 22 through 28, with the participation of Thelonious Monk, Miles Davis, Duke Ellington, Ornette Coleman, Dizzy Gillepsie, Kai Winding, the Soft Machine and the Preservation Hall Band.

* * *

The city council of Lucca, the birthplace of Puccini, has named a committee to begin preparations for the honoring of the fiftieth anniversary of the death of the composer, which occurred in Brussels on Sept. 29, 1924.

* * *

The 1971-72 season of Moscow's Bolshoi Theater, the first complete season under its new director, Yuri Muromtsev, will stick largely to traditional lines. Two new operatic productions are planned—of Glinka's "Russian and Ludmilla" early next year and Verdi's "Il Trovatore" next June.

* * *

"Hölderlin," a play by Peter Weiss depicting the German romantic poet of the title as a revolutionary spirit, will have its world premier Saturday at the Württemberg State Theater in Stuttgart in a staging by Peter Palitzsch. This latest play by Weiss, author of "Marat/Sade," "The Investigation" and other controversial works, will also be performed this season at the Deutsches Theater in Hamburg, in West Berlin and Basel.

Alles van die beste

In the South African language of warm hospitality, this means 'everything of the best'. It's also a friendly salutation.
But on South African Airways it means both.
So when one of our hostesses smiles at you, you see a little bit of sunshine.
And when she's helping you to a rock lobster tail or rich Cape liqueur, it really is everything of the best.
In every way it makes very good sense to fly SAA.
The Boeings we fly are right up to the minute. In fact, SAA will be the first international airline to operate the new 747Bs later this year. What's more our new SAAFARI computer sorts out all your travel problems. Linked to our offices throughout the world, it instantly books your accommodation, arranges car-hire facilities, air/sea interchanges, tour itineraries . . . the works!
So, if you're thinking of flying to South Africa, whether it's from New York, Rio, Australia or Europe, look for a Boeing with a Springbok on its orange tail.
It's a sure sign of warm hospitality.

We fly your way

Who Pays the Tariff?

In the current pushing and shoving among the world's great trading nations, a lot of small countries are getting hurt. Latin America illustrates the point. The United States did not really intend to harm the Latin economies last month when it imposed its 10 percent surtax on imports. The truth is that the White House and the Treasury were not thinking about Latin America at all. But intentional or not, the damage is real and the consequences are going to be serious.

President Nixon worked out his economic program with the advice of a special committee of able and experienced citizens, headed by Albert Williams, whose report has now been published. But in the matter of tariffs the President overrode this committee, which urged him to move toward removal of all barriers to international trade. The Williams committee is right on this issue, and the President is wrong. The evidence is already visible to the south.

The Latin Americans protest, with good logic, that it is unjust to make them pay a surtax designed to remedy a trade crisis in which they played no part. Latin America has traditionally bought more from the United States than it sells here. The Latins are not the people to see about revaluing the yen and the deutsche mark. But the United States meets all objections with a shrug and the observation that it can't start making exceptions now.

Mr. Nixon attempted this week to placate the Latins with the decision that, for them alone, he would cancel the 10 percent reduction in foreign aid; it had originally been part of the program announced a month ago, with the surtax. But the countries getting the most aid are not those hardest hit by the surtax.

The extreme examples are Mexico and Brazil. Mexico does more business with the United States than any other country in Latin America and will be more severely damaged by the surtax than any other. But Mexico takes no direct aid from the United States. On the other hand, the United States gives more aid to Brazil than to any other Latin country. Brazil does half as much business with the United States as Mexico does. Since coffee is exempt, the surtax applies only to about 15 percent of Brazil's exports to this country. But it applies to fully 50 percent of Mexico's exports here.

Less than two years ago Mr. Nixon delivered a glowing speech on this country's responsibilities to Latin America. "They need," he said then, "to be assured of access to the expanding markets of the industrialized world." He promised them advance consultation on trade matters, and he also promised to pursue, worldwide, "a liberal system of generalized tariff preferences." They got no consultation on the surtax, obviously, and now they see the United States taking the lead in raising tariffs. Unfortunately the price of these moves comes high, and much of it is ultimately paid by small nations that cannot afford their large neighbors' mistakes.

THE WASHINGTON POST.

Postscript to a Massacre

In the aftermath of perhaps the most gruesome prison massacre in America's history, with the death toll at Attica already at 42, grave questions have arisen about the accuracy of the story released by state officials on what happened when police officers stormed into the beleaguered jail with guns blazing. Only a swift and totally impartial investigation can clear up the confusion now beclouding this grim tragedy.

A medical examiner, after an autopsy on the bodies of slain guards, flatly contradicted on Tuesday the state's report that the rebellious Attica prisoners had slashed the throats of some of their hostages. The strong indication now is that all the dead guards—and most of the dead convicts—were killed by bullets. And only the police attack force had guns.

If official deception proves another dismaying element in this whole monstrous episode, the credibility of all government will be undermined in an area crucial to the maintenance of the rule of law. It will be difficult, indeed, to rebut the belief of many on the scene that more restraint on the part of authorities and more time to press peace efforts might have ended the five-day rampage by prisoners at the upstate correctional institution without the loss of a single life—hostage or convict.

Gov. Rockefeller justified the assault on the prison compound in a statement that spoke of prisoners having "carried out cold-blooded killings they had threatened from the start" of their takeover. One prison official asserted that at least two of the guards being held captive by the prisoners had been killed by them prior to the police assault and that the body of one had been mutilated. Another official reported immediately after the foray that the rest of the slain hostages had had their throats cut and been beaten by the rioters.

But a diametrically opposite report came on Tuesday from Dr. John Edland, the medical examiner for Monroe County, whose autopsy showed that the hostages died not from slashed throats but from gunshot wounds. Prison authorities concede that the inmates had no guns, so the shots must have come from the police forces storming the compound.

This vital finding not only contradicts the prison officials but also raises fresh doubts about the wisdom of Gov. Rockefeller's refusal to make a personal visit to Attica, as urged by the citizen observer panel that was seeking to effect a peaceful agreement at the prison.

State officials, with the governor's concurrence, had made every reasonable concession in the earlier stages of the uprising. They had rightly refused to bend on two demands that would have permanently undermined discipline at Attica and at every penal institution in the country: total amnesty for the rebels and forced removal of the prison superintendent.

The deadlock heightened tensions and created a real hazard for the hostages, a factor that could not be ignored by the governor. Yet it was the panel's strong belief that the situation might yet have been saved without mayhem by a personal appearance by the governor, not to negotiate with the prisoners but to get a first-hand report from the observers.

The panel felt a need for additional negotiating time. Prison officials evidently felt a need to force the issue immediately. The governor, physically remote from the conflict, decided with the officials and against the panel.

The decision was indeed a "tough" decision—but the latest disclosures make it far from clear that state officials were right in storming the compound when they did or that, as President Nixon confided to a group of congressional Republicans Tuesday, Mr. Rockefeller had "no other course available to him."

What is clear is that the public deserves a thoroughgoing and absolutely impartial investigation. Every aspect of this tragedy emphasizes a need both for fundamental correctional reforms and for an inquiry to establish facts.

THE NEW YORK TIMES.

International Opinion

Khrushchev's Legacy

After Beria was bundled away to death in 1953, Khrushchev's reform in letting real or suspected opponents go on living brought about one of the clearest changes in the regime that Stalin had left, and the reform has not been reversed. One day Russians will give Khrushchev more credit for it than they do now. What attracted Western people to him—if at times they were repelled—were just those erratic, folksy, earthy-commonsensical, cards-on-the-table, apparently naïve, jingoistic, quick-tempered, rampageous traits and mannerisms (with reversions into unpierceable peasant mistrust and plain uncouthness) which made Russians appalled, sometimes frightened, and often ashamed. The bigger tragedy was that the Soviet regime, which brought the peasant boy up to high position and great power, had not the built-in checks and balances to supply the day-to-day controls and save him from his own impulses and excesses of energy.

—From the Times (London).

The Palestinian Guerrillas

One year ago the Palestinian guerrillas appeared briefly to hold the world to ransom through hijacking four aircraft—three to Dawson's Field in Jordan. This spectacular feat looks now like a desperate last fling. It provoked a military confrontation with King Hussein over the control of Jordan which had been building up since the war of 1967. The guerrillas' mistake was to provoke the fight before they were ready. They were routed, and King Hussein has made it his business to edge them out more and more ever since. Palestinian prospects have never looked bleaker.

—From the Guardian (London).

In the International Edition

Seventy-Five Years Ago

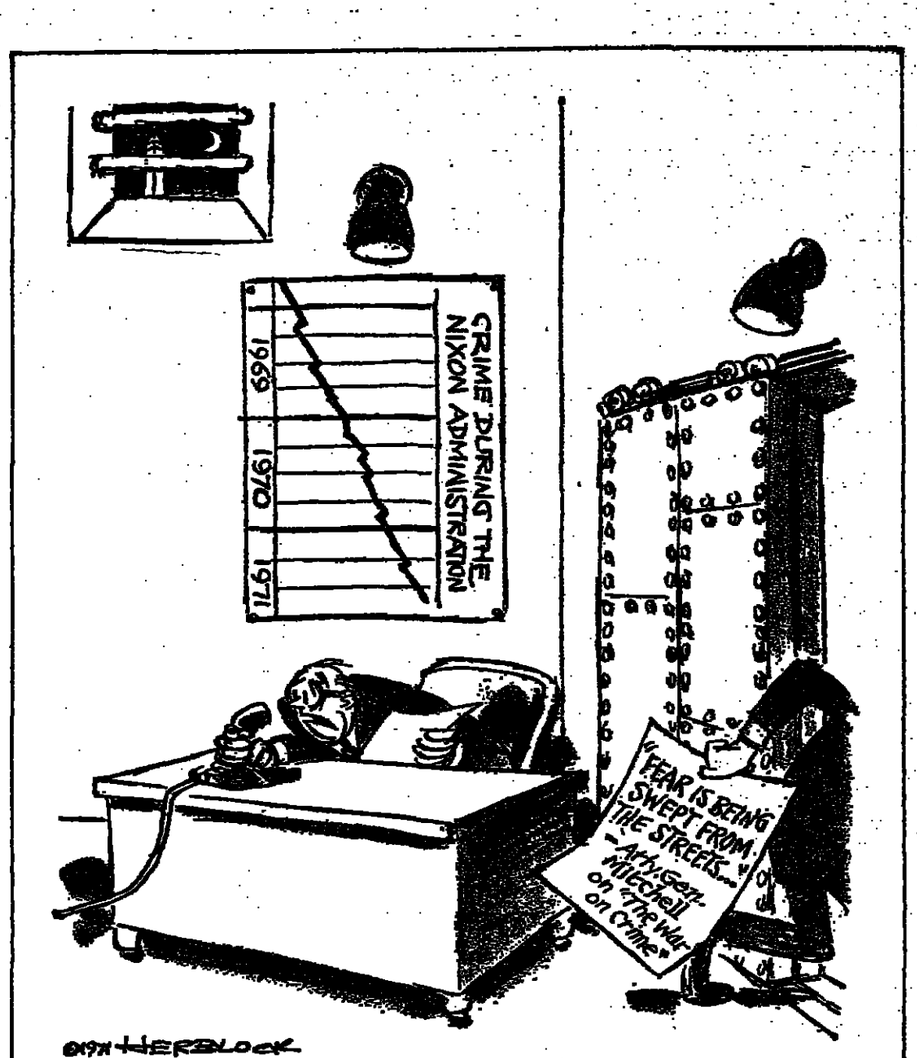

September 16, 1896

PARIS—Starting last night, the Paris theatres opened their doors for the winter season, the Opéra Comique with a revival of "Orphée" and the Palais Royal with a revival of "Le Dindon." The Variétés will reopen tonight with a revival of Messrs. Meilhac, Halévy and Offenbach's opera-bouffe "La Vie Parisienne." Meanwhile Madame Sarah Bernhardt has returned to Paris and is preparing for her revival of "La Dame aux Camélias" at the Renaissance.

Fifty Years Ago

September 16, 1921

SAN FRANCISCO—The coroner's jury late last night returned a verdict in the death of Miss Virginia Rappee, charging Roscoe "Fatty" Arbuckle with manslaughter. After explaining the nature of the injuries which caused death, the verdict said, "Death was caused by the application of force which from the evidence we believe was applied by one 'Fatty' Arbuckle." With this charge hanging over his head, the movie-star days of "Fatty" Arbuckle seem to be eclipsed forever.

Leaving Them With a Laugh

By David S. Broder

SAN JUAN, Puerto Rico.—After a four-year absence from the natural political stage provided by the National Governors' Conference, George Corley Wallace chose to make his return appearance dressed in a light blue shirt, a bright red tie, a navy-blue blazer with brass buttons, and gray slacks.

With his pompadour carefully fluffed to give him every possible quarter-inch of extra height, he looked just a bit like an aging musical comedy star brought back from retirement for a revival of "Dames at Sea."

A big crowd of newsmen and conference tourists jammed the press conference room to see the Little Judge's return. He is, after all, the only governor in the country who got 10 million votes for President last time out, and the only governor with live prospects of running for President next year.

Eight years ago, when Wallace went to his first Governors' Conference in Miami Beach, he haunted the hotel lobby, grabbing visitors by the sleeve and telling them how he was, by God, going to show those Kennedys there was one man in the South that was not afraid to stand up to them.

Now, Wallace doesn't have to grab for attention: It comes to him naturally, and he inhales it, and loves the sweet aroma of fame.

Not having to press so hard, Wallace can let his natural talents as a showman come through. His press conference has become a bit of show biz—with star and audience both knowing in advance what the questions and answers are going *to be, but enjoying the familiar* routine.

"Governor, what did you think of those signs denouncing you that the demonstrators carried?"

"Well, the only ones I saw said Yankee Go Home, and I know they didn't mean me. I'm from Alabama."

"Governor, are you worried coming to this island as an advocate of white supremacy?"

"I don't advocate white supremacy," [a wink] "I just want to let people decide for themselves. I'm not an anthropologist or zoologist or any other kind of logist—I'd just let you decide for yourself."

The pronunciation of the long words is stretched and slurred, letting everyone laugh at the good ole country boy using that fancy language to mock the fancy folks.

Finely Timed

The timing and delivery are almost professional. Wallace's hearing has deteriorated and he often has to turn to an aide standing next to him to have the question repeated. But once he has his cue, he knows exactly what to do.

The Washington newsmen who serve as his foils at these performances are now on a chummy basis with the governor. He first-names them as persistently as President Nixon does at press conferences, and they chuckle appreciatively at even his most familiar sallies.

Incredible as it may sound, Wallace has become one of the boys. Just another politican, with a bag of tricks a bit different from those of his rivals, out performing for his audience.

The question is: What does that leave of the other Wallace, the man that 10 million Americans were willing to stand up for and waste their votes on, the man who was going to give them *more than a dime's worth of* difference? How does Blue Blazer George, the standup comic, turn back into White Supremacy Wallace, the stand-up-for-America protest symbol?

The guess here is that it's going to be hard. Wallace talks of his options for 1972, but they may be more meager than he pretends.

He can run as a Democrat in the presidential primaries of Florida, North Carolina and Tennessee, as he threatens to do. But the likeliest result would be to steal votes from Sen. Henry M. Jackson and thus aid the nomination of a liberal Democratic candidate. Since Wallace wants a left-wing splinter party in the general election, anything he does in the primaries that hurts a more conservative Democratic contender works against his own long-term interests.

As for the general election, despite Wallace's brag that the "busin'" issue will swell his vote, there are a half-dozen other Southern governors here who testify that the feisty Alabamian and his die-hard resistance movement have lost ground in their states since 1968. Except for Mississippi's lame-duck John Bell Williams, Wallace is without public allies in the South.

So long as both the major parties resist the temptation to make votes through open exploitation of the underlying race issue in America, there will always be a sizable number of disaffected whites available for a Wallace-style candidate.

But American politics has a nice way of diminishing the demagogues it cannot defeat. And Blue Blazer Wallace, the 52-year-old comic, just doesn't look like as much of a menace as the angry young man who showed up at his first Governors' Conference eight years ago, preaching defiance to all who would listen.

An Anxious Eye

By Joseph Alsop

JERUSALEM.—In the present Middle Eastern lull, an American visitor is bound to be chiefly struck by the way the leading Israelis see the United States. There is deep apprehension about the course America will take—although this apprehension is certainly not shouted from the rooftops.

The root of the matter is the simple fact that no Israeli leaders, *whether political or military*, are in the least persuaded that the Soviet Union has undergone a miraculous inner change. They do not think the Soviets are any less aggressive, any less power-minded, any less capable of tough and brutal action to serve Soviet interests than they have always been in the past.

In consequence, the Israelis are downright frightened by the American politicians who profess to believe in a miraculous change in Moscow. In the past, our Democratic party was regarded here with the comfortable possessiveness that might be accorded to a suburb of Tel Aviv. But that is the case no longer.

All the more likely Democratic nominees are instead regarded with something close to ill-concealed horror. Even Senators Edmund Muskie and Hubert Humphrey are felt to have paid dangerous blackmail to the peace wing of the Democratic party.

A Long Shadow

Israel has in truth lived too long in the shadow of a Soviet military threat. The threat will turn from shadow to substance if the United States continues to neglect the world balance of power—or that, at any rate, is the belief of the hard-headed Israelis. Hence any American politician who seems pledged to continued neglect of the power balance is regarded as a danger here no matter how many Israeli bond rallies he may have addressed.

These lurking feelings, though only privately expressed, are bound to give any American an uncomfortable sense of the burden of responsibility the United States must carry in this weary world. But that is by no means the end of the story, however.

In important quarters, next year's American election is further seen here as a probable and most significant brake on Soviet actions in the next 13 months. The view is perfectly logical, too.

If the Kremlin has not changed miraculously, it is obvious that Soviet opportunities in the Middle East and elsewhere will be much increased if the United States chooses a soft-minded administration with ingrained delusions about Soviet power and Soviet purposes. It is equally obvious that this sort of American election result will be far less likely if the Soviets act in the interval in a really frightening manner, particularly in the Middle East.

Normally, such analysis of current Soviet behavior would have to be dismissed as groundless. But there are two reasons against doing so at this time. The first reason is the exceptional personal position attained in Washington by the Soviet ambassador, Anatoly Dobrynin. With his wide range of personal contacts, Dobrynin is vividly aware of the way that overly frightening Soviet actions can affect all the American pre-election equations.

As to the second reason abovementioned, it is the one really hard fact discernible among the uncertainties of the Middle Eastern lull. For the time being, the Soviets are using all their influence, particularly in Egypt, to prevent the Arabs from reopening the active phase of the war with Israel.

Concern about the Israelis cannot be the motive, since the Kremlin has spent billions of rubles on arms for Egypt alone. Yet Egypt's President el Sadat is under strong Kremlin pressure to prolong the de facto cease-fire. And this looks very much as though the Kremlin wanted to put off a showdown here in the hope of a more propitious occasion later on in Washington.

The International Herald Tribune welcomes letters from readers. Short letters have a better chance of being published. All letters are subject to condensation for space reasons. Anonymous letters will not be considered for publication. Writers may request that their letters be signed only with initials, but preference will be given to those fully signed and bearing the writer's complete address.

Letters

Victor Louis on Israel

The two articles by the enigmatic but very intelligent Soviet journalist Victor Louis (Sept. 9 and 10) are very interesting, and the picture he is making of the Jewish emigration to Israel, and of the feelings of the immigrants in the promised land, may contain a lot of truth. However, his question—Why American Jews don't settle in Israel, as those from Russia are doing—seems to me rather naïve. Doesn't he really understand that the main reason Russian Jews emigrate to Israel is now the same as it had been before the revolution of 1917?

The reason is namely the same as it was under the Czarist regime: persecution and discrimination. Although Jews are not considered in Soviet Russia as a nation, which may be from a certain point correct, every Soviet "citizen," born of a Jewish father, has in his passport a stigma: Point 5: "nationality—Jew," and this stigma closes practically for him any way of normal advancement, well—unless he is a nuclear scientist, or just to show that they have a Jew even in the highest administration.

A. R. KIND.

Lausanne.

The Soviet view of Israel, as presented by Victor Louis, gives a clear and convincing explanation why the Russian government is so emphatic about not letting the Jews out. Now there is no doubt in my mind that any form of showing one's intention to immigrate from Russia to Israel should be considered as a grave crime ("Hooliganism," if one prefers the Russian terminology), and punished with at least several years of forced labor. It is really a pity that these two articles have not been published in Pravda or Isvestia, for the Russian Jews to read. Maybe some of them will be induced to change their minds about leaving Russia. The lack of opportunity to satisfy one's curiosity about Israel, which Victor Louis is complaining about, could be overcome very easily if the only barrier on the road to Israel were the lack of an Israeli visa, as was the case of Victor Louis himself.

DR. I. M. BAR-NIR.

Heidelberg.

It is quite obvious that Victor Louis, according to your biography *of him, "sometimes* carries out missions for the Soviet Secret Police." His second article that you printed, "A Soviet View of Israel," is so patently written with the purpose of discrediting the American Jew that there is no need for comment on it.

But what I do not understand is why IHT publishes a suspected spy's biased account denigrating the American citizen. This is not a question of freedom of the press. Your editorial page presents many points of view expressed by such eminent columnists as Tom Wicker, James Reston, Anthony Lewis, David S. Broder, Joseph Kraft, Cyrus Sulzberger and Alfred Friendly, but these are journalists, not propagandists.

HILDA MARTON.

Ascona, Switzerland.

Several other letters were received expressing shock at seeing Victor Louis's articles in the IHT and decrying his accounts as distortions, but these letters were either unsigned or gave no address.—Editor.

The Attica Tragedy

There are no superlatives potent enough to describe the horror I felt on hearing of the massacre at Attica Prison. Men's lives were at stake, and one would have thought that those responsible for having ordered the invasion would have used a little more caution and lucidity. This was not the case, and the world witnessed a blatant act of irresponsibility and murder. Surely human lives are more essential and more important to society than power in its most ugly form? Prisoners at Attica rebelled because of the appalling humanitarian conditions and so as to succeed in their demands they took 38 guards as hostages. It seems incredible that the authorities were willing to surpass all barriers of human conscience and kill for the sake of suppressing an embarrassing situation.

PAUL MONTALETTE.

Paris.

No one today can read of the Attica tragedy without thinking: "Whose fault is it? Where will it end?" May I submit that if Gov. Rockefeller had waited before sending in his troopers, someone might have reached him with these thoughts:

Why is the prison population so black in the U.S.? And why have the young generation of blacks taken the violent reaction to racist encounters to which their fathers and grandfathers submitted?

We white moderates ten think of everyone in pris guilty, but the young bla prison today feels complete nocent of crime. He is ther cause he lacked work and fore lacked food and esse He is there because of his response to indignities fro environment.

Until we eliminate our treatment of the black popul we must expect a mo counterattack. Gov. Rock missed his opportunity to the way.

The Financial Troubleshooters of G-10

By John M. Lee

LONDON, Sept. 15 (NYT).—With a name suggesting more the world of espionage than that of high finance, members of the G-10, or the Group of Ten, have been dashing about the world for a decade to shore up the international monetary system.

These ready travelers are the finance officials and central bankers of the Western world's leading economic powers.

But after years of coughs and sputters, the monetary system has broken down. Today, the financial repairmen meet in London to consider both an immediate solution to the dollar crisis and a long-range overhaul of the system itself.

The repairmen are the finance ministers of the United States, Britain, Japan, Canada, Sweden and five of the six Common Market countries—West Germany, France, Italy, the Netherlands and Belgium.

Swiss Are Observers

Switzerland participates as an observer rather than as a member since it is not a member of the International Monetary Fund. The Group of Ten is thus effectively the Group of 11.

It was at the fund's annual meeting in Vienna in September, 1961, that the idea for the group took root. It was apparent then that the resources of the fund could prove inadequate to provide members with loans to tide them over balance-of-payments or currency difficulties.

The following year, 10 fund members with strong currencies undertook to provide an additional $6 billion in credits to the fund beyond their own quotas "to forestall or cope with an impairment of the international monetary system."

These credits were institutionalized in the awkwardly titled General Arrangements to Borrow (GAB) of 1962. The credits were in national currencies and were made available only to members of the group. In 1964, the agreement was activated to provide assistance for the British pound.

$2.15 Billion Borrowed

This month, the fund announced it had discharged completely its own drawings under the GAB for the first time since initial activation in 1964. This means the full credits are again available for use. A total of $2.15 billion was borrowed from 1964 to 1970 to help finance large fund loans to industrial countries.

The GAB provides for $2 billion from the United States, $1 billion each from Britain and West Germany, $550 million each from France and Italy, $250 million from Japan, $200 million each from Canada and the Netherlands (and from Switzerland as an observer), $150 million from Belgium and $100 million from Sweden.

Almost from the beginning, the Group of Ten was known as a rich man's club with an exclusive membership fee of $100 million, the minimum credit to be provided.

The group has never been enlarged, despite offers from other nations, such as Austria and Australia, to provide assistance. Although the group played a useful financial role, it soon came also to play a somewhat more controversial political role.

Members came to look upon the group as a rather special watching body with the advantage of compactness and a responsibility for major policy initiatives, which sometimes brought it into conflict with the IMF itself, which currently represents 116 member countries.

No Permanent Staff

The Group of Ten is unusual in international affairs since it has no secretariat or permanent staff. Its strength lies in its membership of working finance ministers of member governments. Pierre-Paul Schweitzer, managing director of the IMF, also attends, but the chairmanship belongs to the politicians on a rotating basis, and the current holder is Edgar Benson, the Canadian finance minister.

In any assessment of its accomplishments, it is apparent that the Group of Ten has made much greater strides in coming to grips with the liquidity problems of the world monetary system than the problems of smooth exchange-rate adjustments.

N.Y. Prices Extend Midday Gain

By Vartanig G. Vartan

NEW YORK, Sept. 15 (NYT).—Prices on the New York Stock Exchange edged higher today after four declining sessions, although Wall Street analysts described the improvement as mainly technical.

Bond prices matched the recovery in stocks. Bonds fetched somewhat higher prices, following four down days, and provided something of a prop to equity prices.

The Dow Jones industrial average lagged 2 points in afternoon territory during the opening hour, then rebounded at midday to finish at 904.86 with a gain of 3.21.

Eastman Kodak snapped back 1 1/4 to 85 1/8, on the heels of yesterday's 2 3/4 decline. Sears, Roebuck rose 1 5/8 to 93 7/8.

Automobile and auto replacement-part stocks ranked among the market's stronger sectors.

With new-car sales for the first 10 days of September soaring above year-ago levels, Ford rose 1 1/8 to 70 3/4 in brisk trading.

General Motors gained 3/4 to 83 3/4, while Chrysler edged up 1/2 to 30 3/8. Both companies have reported higher car sales.

Repeaters on the list of 1971 highs included a pair of replacement-part issues that earlier had reported gains in profits. These were Monroe Auto Equipment, up a point to 71 3/8, and Genuine Parts, up 1/2 to 61.

Golds Decline

Leading gold stocks showed fractional declines. The gold-mining issues had glittered with gains yesterday, benefiting from the uncertainty of the international monetary situation and conjecture that the United States might take steps ultimately to devalue the dollar on a formal basis.

Volume continued to run well below the 1971 average. Turnover on the New York Stock Exchange drifted down to 11.08 million shares from yesterday's 11.41 million.

Selected glamour stocks displayed some bounce. Bausch & Lomb rose 4 7/8 to 148. International Business Machines moved up 3 1/4 to 303.

Among the losers, however, was Corning Glass, which dropped 3 to 240 1/2 after falling 3 1/4 in the previous session. This stock has come under pressure within recent weeks, following criticism of its high earnings multiple on the part of some analysts.

Braniff Airways, the volume leader, rose 1/4 to 12 5/8. American Airlines, up 3/8 to 35, reported a sharp increase in August earnings.

American Airlines recently was picked by Standard & Poor's as a "stock for action."

The American Exchange index closed at 25.54, up .04, but declining issues led advances 420 to 394 with 300 issues unchanged. Volume rose to 3,476,000 shares from 3,432,000 yesterday.

NYSE May Make Brokers Disclose Accounts Figures

NEW YORK, Sept. 15 (WP).—The New York Stock Exchange has revealed that it is considering new rules which would require brokers to give their customers a more complete picture of their financial condition.

The exact kind of information which would be made public was not spelled out, but it would presumably include statements of profit and loss and working capital, both of which are kept secret by the majority of brokers.

The disclosure yesterday was made in a joint statement issued by NYSE President Robert W. Haack, American Stock Exchange President Paul Kolton and New York State Attorney General Louis J. Lefkowitz, after a one-and-a-half-hour meeting in Mr. Lefkowitz's office.

Last July, an attorney general's staff report charged that data given to investors on the financial condition of stock brokers was inadequate and often misleading. The report said that the exchanges and the Securities & Exchange Commission receive more complete information and that those figures should also be given to the firms' customers.

While some larger firms traditionally report earnings, most do not. Brokers who sell their stock to the public will be required to issue reports, but the proposed new exchange rule would require all member firms to give more information.

The joint statement also said the two exchanges are studying whether accountants who audit brokerage firms should be responsible for informing the exchanges of any "potential or actual operating problems which should be corrected."

At a press conference after his meeting with the exchange presidents, Mr. Lefkowitz said he had received a copy of a new "audit guide" proposed by the American Institute of Certified Public Accountants. He said the guide, which sets down rules for auditing brokerage firms, was "disappointing" in matters of public interest.

"We want more than they're offering," Mr. Lefkowitz said, explaining that he will submit written comments on the proposed guide within a few days.

Mr. Lefkowitz also said the July study has produced leads which are being checked for possible criminal prosecution, especially concerning some brokers' use of customers' fully paid securities as collateral for their own bank loans.

France Plans 5% GNP Rise In the Balanced 1972 Budget

PARIS, Sept. 15 (UPI).—Finance Minister Valéry Giscard d'Estaing today presented a balanced budget for 1972 pegged to an identical growth rate in the gross national product.

The planned budget showed an outflow of 187 billion francs ($34 billion at official parity) against an estimated income of 190 billion francs, a 9.3 percent increase over last year.

The budget anticipates a GNP rise of 5.2 percent and a volume of exports increase of 8.1 percent against a 7.2 percent increase in imports.

"We live in a difficult world, shaken by monetary uncertainties," Mr. Giscard d'Estaing said in his speech accompanying the forecast. "But France wishes to continue its economic progress, assuring both well being and full employment."

"Presented in balanced form, (the budget) it avoids monetary disequilibrium and stress on rising prices. Moreover it includes a margin or maneuver should the economy need boosting by means of economic stimulants," he said.

"A budget must have a direction and the direction of the 1972 budget is simply a continued equilibrium and a willingness to expand," he added.

The budget, predicting a cost of living increase of only 0.3 percent per month, increased the taxation on alcohol and tobacco while at the same time raising pensions and other social security benefits.

Inflation Warning

PARIS, Sept. 15 (Reuters).—The National Statistics Institute warned today that inflation is now established in the French economy, at a time when demand pressures are not excessive.

In a report on the economic situation at the end of August, the institute said the danger of this is all the more acute inasmuch as other nations will probably step up their fight against inflation as a result of recent monetary events.

In addition inflation, as it erodes export margins, will make all the more difficult concentration on export markets—which was a major aim of the franc devaluation in August 1969.

However, the institute said that France's external position seems assured at least until the end of the year, especially as the government's refusal to revalue the franc will make French goods more competitive on foreign markets.

Industrial production is expected to advance at an annual rate of around 6 percent over the second half, a rate close to that of the increase in output capacity, the institute forecast. Consumer industries will probably remain buoyant, in line with household demand.

On wages, which have gone up by an average of 5.4 percent in the first six months, the institute commented that "an annual rate of increase of 9 or 10 percent is the least that can be expected for the second half."

Price Freeze Accord

PARIS, Sept. 15 (AP-DJ).—The employers association has agreed to cooperate with the government in its fight against inflation, the association said today.

Employers have decided to accept the government's proposal to limit overall price rises throughout industry to 1.5 percent over the next six months, with a more flexible percentage limit for individual sectors.

In return, the government is expected to undertake to freeze prices of public utilities and taxes in the next six months.

Rio Tinto Net Drops 25% In First Half

LONDON, Sept. 15 (AP-DJ).—Rio Tinto Zinc Corp. profit dropped 25 percent in the first half ended June 30, the international mining group announced today.

RTZ said net profit for the period was £10.5 million ($25.2 million at official parity), compared with £14 million in the same period last year.

The company announced, however, that it is maintaining its interim ordinary dividend at 3 pence a share.

Sales for the half-year rose 3.3 percent to £224.3 million from the previous £217.1 million.

Directors attributed the profit decline to lower world metal prices, particularly for copper, and a general recession in world trading conditions.

Plessey Unchanged

LONDON, Sept. 15 (AP-DJ).—Plessey Co. profit for the year ended June 30 was £13.8 million ($33.2 million), unchanged from 1970 earnings, the telecommunications firm said today.

The company declared a final dividend of 5 percent, making an unchanged 10 percent total payout.

Lord Harding, chairman, said profit was affected by depressed business conditions in the United States.

He said the order intake had fallen and profit margins narrowed but that the company's liquidity position was strong with greater profit potential.

Hodgson Says Post-Freeze Policy May Hit Wage Pacts

WASHINGTON, Sept. 15 (NYT).—Secretary of Labor James D. Hodgson warned yesterday that collective-bargaining agreements scheduled to take effect after the 90-day wage and price freeze might have to be changed because of administration post-freeze policies.

Mr. Hodgson issued a statement noting that both wages and non-economic issues are negotiable during the freeze if the settlement is to be carried out after the 90-day period expires. However, if companies and unions reach a settlement, "they should be advised that subsequent revisions of these terms may be needed depending on what policies will prevail following the 90-day freeze."

Mr. Hodgson asserted that the government's post-freeze policies had not yet been determined, but official sources said that his statement could be taken as a warning that controls on wages in some form were a distinct possibility.

The warning followed a statement by Secretary of the Treasury John B. Connally cautioning businessmen against entering long-term contracts for the delivery of goods and services after the freeze period.

Officials said Mr. Connally's statement was an indication that some form of price controls was being seriously considered for the second stage of the administration's economic stabilization program.

Major industries now engaged in collective bargaining, or scheduled to be, include bituminous coal, shipping and aerospace, among others.

More than 300,000 workers would be affected by collective bargaining in these industries and approximately twice that many in other industries will be involved in contract negotiations during the freeze period.

Hong Kong Curbs Textile Exports

HONG KONG, Sept. 15 (NYT).—Hong Kong announced today the introduction of voluntary controls to limit the growth of man-made fiber and woolen textile exports to the United States.

The new restraints, to run for one year beginning Oct. 1, will limit the increase in the textile exports to no more than 6 percent of the levels for 1970-71. They will be in addition to restrictions on cotton textile exports covered by an agreement made between Hong Kong and the United States last December.

A Hong Kong government statement described the new move as a "temporary expedient." It follows negotiations between the United States and Hong Kong, which, the statement said, have so far failed to reach a "mutually satisfactory settlement."

Americans Buy Bagloads of Foreign Money

NEW YORK, Sept. 15 (AP).—American travelers, afraid their dollars are not good in Europe, are buying millions of dollars worth of foreign currency here.

"The demand is so unusually heavy that we have had to bring in bags and bags of money," said Nicholas L. Deak, head of a major money exchange chain.

He said his company had to set up a special transfer service between the airport and his offices.

"With money coming in on every flight, we had to make special arrangements," he said. "The old service for occasional shipments was not enough."

The dealer said the pound sterling was the currency most in demand, followed by the German mark. Swiss francs were in third place and the French franc fourth. Then came Dutch guilders, the Italian lira and the Spanish peseta.

Commonwealth United Says Creditors Back Refinancing

By H. Erich Heinemann

NEW YORK, Sept. 15 (NYT).—Commonwealth United Corp., a once-glamorous conglomerate that has fallen on hard times, said yesterday that its major "secured creditors" have agreed in principle to a complex refinancing plan designed to clear away $120 million in defaulted debt.

However, spokesmen for some of the key creditors, while confirming that negotiations over the plan were in progress, immediately denied that any agreement has been reached, in principle or otherwise.

The reorganization plan has been worked out under the terms of the 18-month moratorium on debt repayment that Commonwealth negotiated with its creditors last year. The plan was designed to revitalize Commonwealth into a "viable ongoing company," according to Louis J. Nicastro, chairman and president.

But according to Justin M. Golenbock, senior partner of Golenbock and Barell, counsel to Commonwealth, "it is entirely possible" that the company will have to file under Chapter XI of the federal bankruptcy laws to implement the plan.

A trustee of one of Commonwealth's public debenture issues, who asked not to be identified, went further yesterday. The company has stated to creditors recently, the trustee said, that its "intention" was to file under Chapter XI, so that the court could review the fairness of the plan and compel minority holders of the debentures to accept it.

Commonwealth's public debenture holders, who account for $84 million of the total debt, are specifically excluded, of course, from the reported agreement in principle with "most of the major secured creditors."

Here are some of the salient features of the plan:

● The assets and liabilities of Seeburg Corp., the vending-machine concern that is Commonwealth's principal business today, will be sold to a new company, Seeburg Industries.

The new Seeburg is to be financed by the sale of 550,000 shares of stock to company insiders, including Mr. Nicastro, and certain secured creditors, at $5 a share. Allen & Co., which devised the plan, is to get up to 40,000 shares at $1.00.

● Seeburg Industries is to pay $2.75 million in cash for the Seeburg business; it will issue 1.5 million voting and nonvoting shares to Commonwealth, plus seven-year warrants to purchase 290,000 shares of its common stock at $17.50 a share. Commonwealth will use these proceeds to satisfy its debt.

Some Dividends Get Freeze Exemption

WASHINGTON, Sept. 15 (AP).—The Cost of Living Council cleared the way yesterday for companies to declare extra year-end dividends without violating President Nixon's request to hold the line on dividends.

The council said companies may increase year-end dividends if they have done so in each of the past three years. But the extra dividends must not exceed those declared last year, the council said.

GRAMCO MANAGEMENT LTD.

NOTICE OF ANNUAL MEETING OF SHAREHOLDERS

7th October, 1971

NOTICE IS HEREBY GIVEN that the Annual General Meeting of Shareholders of Gramco Management Limited will be held at Claughton House, Charlotte Street, Nassau, Bahamas, on 7th October, 1971, at three o'clock in the afternoon, and at any adjournments thereof, for the purposes set forth below. Shareholders of record at the close of business on 7th September, 1971, are entitled to vote at the meeting.

It is proposed to elect a Board of Directors to hold office for terms expiring at the Annual General Meeting of Shareholders to be held in 1972 and until their successors shall have been duly chosen and shall have qualified.

It is also proposed to approve agreements requiring a transfer, subsequent to court approval, of the Company's rights and duties as the manager of Unit Real Estate, a Bahamian Unit Trust, to Arlen Realty and Development Corp.

Members representing one-tenth of the outstanding Ordinary Shares constitute a quorum, and the affirmative vote of a majority of a quorum is required for the adoption of each matter proposed to be presented to the meeting. Each Shareholder or bearer of warrants who has complied with the requirement stated herein is entitled to one vote in person or by proxy (who need not be a member of the Company) for each Ordinary Share registered in his name or represented by his warrant.

A bearer of the Company's share warrant is entitled to attend and vote at the meeting only if, at least one day prior to the meeting, he shall have deposited at the registered office of the Company (a) a statement in writing of his name and address, and (b) a certificate of a bank acceptable to the Company stating that the warrant has been deposited with that bank together with irrevocable instructions to the effect that the warrant will not be withdrawn from deposit until after the close of the meeting. If a bearer has filed the appropriate certificate and statement, and if the Directors of the Company have received no notice of any adverse claim to the bearer's warrant, a certificate stating his name and address and the number of shares represented by his warrant will be held for him, together with a proxy and a proxy statement furnished by management of the Company. This certificate will entitle the shareholder's representative to attend and vote at the meeting as though he were a registered member of the Company.

The management of the Company is not aware of any other matters which may come before the meeting. If, however, any other matters properly come before the meeting, it is the intention of management to deal with them at that time.

MODERN MEXICO

Where in the World can you find a higher yield with less risk than in

MODERN MEXICO!

"Mexico has enjoyed one of the highest rates of economic growth in the world in recent years", says an authoritative U. S. Department of Commerce Study. Why? Because here's one of the world's most stable currencies. Because qualified experts call Mexico "the standout example of responsible government and business in Latin America." Because there is a controled economic explosion going on in Mexico... in industry, public works, consumer goods, and international trade... which has created a true "investors market", with a yield which invites comparison anywhere in the world.

Maybe this helps to explain why the international "smart money" men are putting their funds down Mexico way... and why maybe you should, too, for exactly the same good reasons. Here are two offerings among many...

BANK TIME DEPOSIT CONTRACTS: Depending upon the length of time involved, these short-term loans to Mexico's Industrial Development Banks yield a net of 9% and up, after Mexican taxes... high enough to make them one of the world's most attractive and safe investments. Interest is payable monthly. Minimum investment: $4,000.00 U. S. dollars, or equivalent in any internationally recognized currency.

BANK LIQUID BONDS: These Demand Deposits pay 8.73% net after Mexican taxes, interest payable quarterly; and your money is immediately available whenever you need it. (These Bonds are also ideal for use in compounding interest earned on Bank Time Deposit Contracts). Minimum Investment: $4,000 U. S. dollars, or equivalent in any internationally recognized currency.

QUESTIONS JUST CLIP & MAIL THIS COUPON.

☐ SEND ME YOUR FREE BROCHURE WHICH GIVES THE HOW & WHY OF INVESTMENT IN MODERN MEXICO.

☐ PUT ME ON YOUR LIST TO RECEIVE 3 FREE COPIES OF YOUR MONTHLY "MEXICAN ECONOMIC REPORT" AND SUMMARY OF TYPICAL MEXICAN INVESTMENTS.

☐ PLEASE ANSWER MY SPECIFIC INVESTMENT QUESTIONS ATTACHED TO THIS COUPON.

z—Sales in full.

Unless otherwise noted, rates of dividends in the foregoing table are annual disbursements based on the last quarterly or semi-annual declaration. Special or extra quarterl or semi-annual declaration. Special or extra dividends or payments not designated as regular are identified in the following footnotes.

a—lso extra or extras. b—Annual rate plus stock dividend. c—Liquidating dividend. d—Declared or paid in 1971 plus stock dividend. e—Paid last year. f—Paid in stock during 1971, estimated cash value on ex-dividend or ex-distribution date. g—Declared or paid so far this year. h—Declared or paid after stock dividend or split up. k—Declared or paid this year, an accumulative issue with dividends in arrears. n—New issue. p—Paid this year, dividend omitted, deferred or no action taken at last dividend meeting. r—Declared or paid in 1970 plus stock dividend. t—Paid in stock during 1970, estimated cash value on ex-dividend or ex-distribution date.

cld—Called. x—Ex dividend. y—Ex dividend and sales in full. x-dis—Ex distribution. xr—Ex rights. xw—Without warrants. ww-WAITH WARRANTS. WD-When distributed. wi—When issued. nd—Next day delivery.

vj—In bankruptcy or receivership or being reorganized under the Bankruptcy Act, or securities assumed by such companies. fn—Foreign issue subject to interest equalization tax.

Year's high and low range does not include changes in latest day's trading.

Where a split or stock dividend amounting to 5 per cent or more has been paid the year's high-low range and dividend are shown for the new stock only.

PUBLIC TENDER OFFER

BASTOGI SHARES AT A PRICE OF LIT. 2,800 EACH

Westdeutsche Landesbank, by order and in its capacity of authorized representative of an important international group, undertakes, irrevocably, to purchase at a price of Lit. 2,800 each, 20,000,000 (twenty million) BASTOGI-SOCIETA' ITALIANA PER LE STRADE FERRATE MERIDIONALON S.P.A. shares on condition that the offer be accepted for a total number of shares which shall not be inferior to twenty million.

The offer is made indistinctly, and on equal terms, to all the shareholders of the company.

Acceptance shall be effected by means of the deposit of the shares with the Comitato Direttivo Degli Agenti Di Cambio Della Borsa Valori Di Milano (Management Committee of the Milan Stock Exchange) by, and not after, 4:45 p.m. on October 8, 1971.

The shareholders who intend to accept the present tender offer should arrange to deliver the shares either with the banks which have been authorized to effect payment—Banco Ambrosiano and Banca d'America e d'Italia—or with any other bank, stockbroker or share agent, provided delivery is made in such time as to permit the above-mentioned intermediaries to arrange for the deposit of the shares, by, and not after, the term which has been agreed on (4:45 p.m. on October 8, 1971) with the Comitato Direttivo Degli Agenti Di Cambio Della Borsa Valori Di Milano (Management Committee of the Milan Stock Exchange) in accordance with the formalities which will be issued by this committee.

Should the acceptances consequent to the tender offer be made for more than 20 million shares Westdeutsche Landesbank reserves the right to decide to purchase, within ten days from expiry of the term for the tender offer, all the shares deposited. Should Westdeutsche Landesbank not avail itself of this right, it commits itself to return to each shareholder, in proportion to the number of shares each shareholder shall have deposited, any shares in excess of 20 million shares.

Should the acceptances consequent to the tender offer be made for less than 20 million shares, Westdeutsche Landesbank reserves the right to decide, always within the same period of ten days from expiry of the term for the tender offer, to purchase the total shares deposited all the same.

The Comitato Direttivo Degli Agenti Di Cambio Della Borsa Valori Di Milano (Management Committee of the Milan Stock Exchange) is authorized to proceed with the checking of the total number of acceptances which shall have been received and to communicate publicly, within fourteen days from expiry of the term for the tender offer, the numbers of shares for which the tender has been accepted and, should such number be higher or lower than the one indicated in the tender offer (twenty million), the decisions Westdeutsche Landesbank shall consequently have taken in accordance with what has been stated above.

Banco Ambrosiano and Banca d'America e d'Italia are authorized, as soon as the above-mentioned communication shall have been published, to effect cash payment for the shares sold, value from day of payment.

Westdeutsche Landesbank has already deposited with the banks which will effect payment all instructions relative to the operation and has already provided them with the financial commitment necessary for the termination of the operation, guaranteeing full observance of the regulation contained in Law No. 43 of February 7, 1956, regarding investment of foreign capital in Italy, and of all other current laws regarding the matter.

Westdeutsche Landesbank declares that its principal has already reached some understanding with other shareholders of Bastogi; this understanding will ensure, should the present offer be a successful one, control of the company.

Such control will permit Bastogi to place the enterprise in a position to come into possession of risk capital and to operate through bodies of international dimensions, in economic systems which continuously tend towards greater integration, with those consequent appreciable advantages to the company which can easily be anticipated by a far-reaching financial policy.

The Comitato Direttivo Degli Agenti Di Cambio Della Borsa Valori Di Milano (Management Committee of the Milan Stock Exchange) has been authorized to publish the present tender offer by posting it in the Milan Stock Exchange at 10 a.m. on September 13, 1971.

Authorized to act on behalf of Westdeutsche Landesbank Girozentrale, Av. Prof. Ariberto Mignoli.

EXECUTIVE OPPORTUNITIES

MANAGING DIRECTOR

ITALY

$50,000

large American and international company with worldwide interests in the consumer service field is seeking a Managing Director for their Italian subsidiary. The executive will have the responsibility of leading a strong and dynamic management group and will be expected to continue the rapid growth of the company.

Ideally, this man should be an Italian national, fluent in Italian and English. He should be between 35 and … years of age, a University graduate, preferably in marketing. The man should preferably already have experience in general management of the Italian subsidiary of an American group in the field of consumer service products, including gasoline distribution, consumer durables, etc., particularly with large branch operations.

For a well-qualified executive with proven success in motivating a dynamic organization, this is an outstanding opportunity for a brilliant career.

His current position, qualifications and earnings must be at a level that would entitle him to command total remuneration of up to $50,000.

Write in confidence, giving full information on academic background, business experience, current earnings, home address and telephone number.

As a leading international firm of management consultants retained by our client to select this executive, we undertake that no information will be released without prior consent and after a personal interview.

Box D-2,744, Herald Tribune, Paris.

REGIONAL MANAGER/RESIDENT ENGINEER
EUROPE, MIDDLE EAST & NO. AFRICA

Industrial sales experience, technical background and sound knowledge of American business methods required.

European-based opportunity for full marketing responsibility of industrial products sold through local distributors and representatives primarily to power utilities and telephone companies. Complete fluency in English and French required. Working knowledge of German and Spanish helpful. Background in power transmission or telecommunications would be especially appropriate. Currently well-established business with substantial growth planned via licensing and new product introduction. Creative, energetic executive will enjoy challenge of this opportunity. All replies and interviews will be strictly confidential.

Please submit a comprehensive resumé, including earnings history, by airmail to:

Box D 2,756, Herald, Paris.

WANTED
Managerial Executive

Must be European, mature, languages necessary, competent, initiative, willing to work hard. Preferably knowledge of stereo and camera products or love for them. Job is to assist Exec. V.P. in a most challenging, rewarding position, stock option possible, must be willing to travel extensively, reside in low income tax country. *Brief resumé with recent snapshot to:*

John L. Suter,
CH 6911 Brusino-Arsizio, Switzerland

EXECUTIVES AVAILABLE

$96,000 BARGAIN

That's the present salary of the Executive Vice-President of a major American advertising agency, who seeks a challenging assignment in Europe. Something interesting in packaged goods marketing or advertising management. Strong creative and marketing background. Specialist in new product development and launches. Good at training juniors. Age 46. Salary not paramount.

Reply to:
Box D-2,739, Herald, Paris.

EXECUTIVES AVAILABLE

LAWYER

…years, Italian, single, 5 languages, 3 years' Industrial … 3 years' International insurance experience, currently employed, desires challenging position with international concern, location open.

Please write: Box 140, Tribune, Mercede 55, Rome, Italy.

INTERNATIONAL MARKETING

…/American, multilingual, profit-minded, successful executive experience … and Latin America General Management, Finance, Marketing, Overseas …, seeks challenging activities Southern Europe/Overseas.

Write: D-2,730, Herald, Paris.

RIP KIRBY

BLONDIE

BRIDGE

By Alan Truscott

Jean-Paul Meyer, editor of Le Bridgeur, and one of France's top-ranked players, took time out from a business tour to play in a recent New York tournament event.

Meyer showed himself to be a brilliant defender on the diagrammed deal, on which he sat East.

When South made a penalty double, West retreated into two clubs. North made a penalty double in his turn, but South jumped to three spades.

North raised to game, expecting South to have a six-card spade suit for his jump. West led the diamond three, and East was permitted to win the first trick with the queen.

East judged correctly that South held the diamond ace and at least one more small card. To avert a diamond ruff in the dummy, he therefore cashed the spade ace and played a second trump.

The trump leads were a blow to South, but he still had several strings to his bow. He pulled the remaining trumps and led a heart to dummy's queen. As West played the heart two, a low card to show an odd number in dummy's long, strong suit, East ducked promptly. This was the second nail in the declarer's coffin: If East had taken the heart trick dummy's hearts would have taken care of South's two potential losers.

South had no illusions about the heart suit, East's opening bid made it virtually certain that he held the heart king, so South *hoped for an end-play.* He entered his hand with a club lead to the ace, reaching this position.

NORTH
♠ —
♡ A J 8
◇ J
♣ 10 9

WEST
♠ —
♡ 10
◇ 10 8 4
♣ Q J

EAST
♠ —
♡ K 9
◇ K 7 2
♣ 7

SOUTH
♠ 4
♡ 7
◇ A 9
♣ K 5

The last trump was led, and both defenders gave up a diamond and South a heart from the dummy. He followed with the diamond ace, but East was still alert: He dropped the king preserving the seven, and South's last chance disappeared.

NORTH
♠ 7 5
♡ A Q J 8 6
◇ J 5
♣ 10 9 4 2

WEST
♠ 9 2

BOOKS

THE CONDOR PASSES

By Shirley Ann Grau. Knopf. 421 pp. $7.9

Reviewed by Christopher Lehmann-Haupt

OH dear. Here's the faithful black family retainer reflecting on the white folks' strange ways and his own invisibility, "with vague atavistic pictures of burning crosses and hanging black bodies... buried back in his mind." Here's the man at the piano singing "Bulldog, bulldog, bow-wow-wow" ("Good old college song, only thing I learned."). Here's the boy dying of leukemia—symbol of his family's thinning blood. Here's the "dust motes swimming in light streams under the dirty windows..."

And here, of course, is the inevitable "curling loop of flowering bougainvillaea" (though to this bougainvillaea's credit, it manages to hold off its appearance until Page 394, whereas most bougainvillaea in books like this can't wait beyond Page One to come curling into the picture). But doesn't it all sound too, too familiar? Haven't we been here before?

I felt that way reading Shirley Ann Grau's new novel, "The Condor Passes," her first since the Pulitzer Prize-winning "The Keepers of the House," and there are plenty more good reasons to do so. But it wouldn't be fair to say that it's the only feeling I had. For I did keep turning the pages. Her story does have a certain vitality. The illusion she creates never does collapse completely. And though it is, after all, a terribly easy book to make fun of, the mockery does stay in the back of one's head until the story is practically over.

Why is that? Because Miss Grau has the charms of a favorite niece—I mean one of those precocious children who, whenever you stop by their rooms to say good night to them, launch pell-mell into telling the first wild story that pops into their heads, and don't stop chattering until they're convinced they've won your full attention and are tired of it.

Once upon a time there was a fabulously rich, fantastically old Old Man named Thomas Henry Oliver, this niece starts off in the *midst of your hello-good nights.* Who owned the most beautiful home in New Orleans and a huge estate in Port Bella on the Gulf. (Of course, you nod. Port Bella on the Gulf.) Who owned jet planes and helicopters and yachts and oil wells and supermarkets, she goes on. And prostitutes, she adds, in case your mind is wandering. Who made his first money on prostitutes, and on gambling casinos, and on bootlegging during Prohibition. Who had two daughters, one a religious fanatic, the other a nymphomaniac. The religious fanatic used to torture herself with red ants. Because her son was dying a beautiful death of leukemia, and World War II was raging. Meanwhile, the nymphomaniac had fallen madly in love with a Greenwich Village artist named Georges Leger.

Well, you more or less stay and listen. You are more or less hooked on the story—if not by its credibility, in fact it is outlandish, then by the palpableness of the characters (for in fact they are all of papier-mâché through and through, in the shape with every new twist then by the sheer breathlessness of the narrative, the wonderful storyteller's improvisation—what she do next to keep the fire sizzling? What new diseases, depravities, excesses will she dream up? Besides, it would be rude to interrupt.

So of course the climax—the dust motes, the bougainvillaea, the smell of sun-driven flesh, the hideous leering casting cold eyes on the conspiracy. A storyteller switching from one character's point of view to another's, the narrative rushing from climax to climax and with so many years of machinations to cover, she doesn't have the time to explore the characters, set scene and the objects around to avoid the occasional cliché or crocus. So even when Grau has the Old Man's profligate grandson says, "You know what's the matter with that damn thing? The whole damn thing? The pubic hair," your mind doesn't register a straight face. And you don't mind.

Until it's almost over, that is, at the end; having been thoroughly diverted us, Miss Grau has suddenly compelled to make a point. And what she may have guessed, it seems to have something to do with how it seems that the conduct of the black bird" that "in the old days people used to carry on in the feathers." To convey her messages to the next world she must fill the quills with gunpowder and bury them with the dead, "the way the spirit would take the money." And it seems that when the Old Man explains to his grandson, deathbed, Stanley, the old family black retainer, feels a cool breeze at the nape of his neck, a breeze blowing through there." And it seems that Stanley inherits over a million dollars from the Old Man. Strangely enough, when Stanley returns to the site of the old homestead for the first time, "Two floodlights on the house cast his shadow on the path ahead, a huge and very shadow, black and monstrous, with two black terrors on each side."

I leave you to interpret whatever you think that means. Myself, I think our reviewer was getting sleepy at the end.

Mr. Lehmann-Haupt is book reviewer for The New York Times.

Dodgers Trim Giants' Lead to 1

...AN FRANCISCO, Sept. 15 ...).—The Dodgers took another ...e of the Giants' lead and ...ale last night.

...an Francisco, 8 1/2 games ...ad in the National League ...t on the morning of Sept. 5, ...ow only one game ahead of ... Angeles after falling to the ...igers, 6-5, in Candlestick Park. ...he Dodgers, each day finding ...ew hero, won the game when, ...ling, 5-3, in the top of the ...h, Manny Mota pinch-hit a ...ble with the bases loaded for ...e runs and the victory.

...hen, when the Giants had a ...nce to tie in the ninth, a 48-...-old knuckleballing relief pitch-...amed Hoyt Wilhelm struck out ...ie Mays with two men out and ...an on second to end the game. ...e victory was the Dodgers' ...th in a row and their 13th in ...r last 15 games. The Giants ...e one victory in their last 10 ...ests.

"We're still in first place," said ...nt manager Charlie Fox, his ...inder piercing the silence in ... Giant clubhouse. And later ... manager added, "We're not ...eding anything."

"We threw everything we had ...hem and it wasn't enough," ...dded, calling it the toughest ... in his two seasons as a major ...ue manager.

...r Dodger manager Walter ...on, "It was like a World Series ...e."

...bby Bonds of the Giants ...d his 31st home run of the ...on, and second of the night, ... two men on base in the bot-... of the seventh to give the ...ts a 5-3 lead.

"The homers didn't do a bit of ...," Bonds said later. Neither ... the strong pitching of San ...ncisco starter Gaylord Perry, ... allowed just one earned run ...even innings. He stood to get ... 15th victory, until the Dodgers ...ked in the ninth off relievers ...y Johnson and John Cum...and.

...ike Sims led off the inning ... a broken-bat single to center, ...ch-hitter Bill Sudakis looped ...ingle over second base and Maury Wills got a bunt single to load the bases. Fox then brought in Cumberland, one of the Giants' regular starting pitchers, to face Mota, who was batting for Bill Buckner.

Mota lined the first pitch over third base and into the left field corner to clear the bases.

Johnson, now with a 12-7 won-lost mark, took the loss, and Joe Moeller, who relieved Dodger starter Al Downing, got the victory to make his record 2-3.

But Wilhelm, who pitched to catcher Charlie Fox many years ago in spring training with the New York Giants, worked the ninth for Los Angeles to earn a save.

The Dodgers, who swept their last eight games with the Giants and won the season series, 12-6, play San Diego tonight in Los Angeles. They play nine of their remaining 14 games at home.

The Giants, facing Cincinnati here tonight, have only five more games before going on the road to end the season.

Two Giants and two Dodgers were fined an undisclosed sum yesterday morning by National League president Chub Feeny who was an eyewitness Monday night to a row that cleared both benches as the Dodgers beat the Giants, 5-4.

The fires were leveled against Juan Marichal and Jerry Johnson of the Giants and Bill Buckner and Maury Wills of the Dodgers.

Phils 5, Cards 4

Philadelphia blasted Chris Zachary for five runs in the second inning to beat St. Louis, 5-4.

Braves 5, Reds 2

Hank Aaron set a National League career record of 1,053 runs batted in when he drove in five runs with his 42d and 43d homers of the season and paced Atlanta to a 5-2 victory over Cincinnati.

The home runs left Aaron two shy of his career high for a season and gave him a life-time total of 635. The five runs he batted home boosted him ahead of Stan Musial's previous record and one shy of the total of Ty Cobb, who ranks third on the all-time list. Babe Ruth and Lou Gehrig rank one-two.

Padres 5, Astros 2

San Diego scored all its runs in the first inning and snapped Houston's eight-game winning streak with a 5-2 victory.

Expos 12, 3, Mets 1, 6

Wayne Garrett's towering fourth-inning popup fell safely 15 feet in front of home plate for a two-run error. The New York Mets topped Montreal, 6-3, after Ron Fairly drove in five runs in the Expos' 12-1 opening-game triumph.

Tigers 6, Orioles 1

In the American League, Bill Freehan crashed a three-run homer and Mickey Lolich posted his 24th victory as Detroit defeated Baltimore, 6-1. Lolich, 24-11, pitched his 25th complete game as the second place Tigers stalled Baltimore's division-clinching number at nine.

Royals 2, A's 0

Joe Keough's run-scoring single broke a scoreless deadlock in the seventh inning to spark Kansas City to a 2-0 victory over Oakland and prevented the A's from clinching the American League West title.

Brewers 5, White Sox 4

Dave May drove home four runs with a third-inning home run and a tie-breaking, seventh-inning double to give Milwaukee a 5-4 victory over the Chicago White Sox.

Indians 3, Senators 1

Cleveland and Washington set a new major league record by using a total of 15 pitchers as they battled to a 5-5 deadlock in the second game of a doubleheader halted by a curfew after 16 innings. Rookie Vince Colbert tossed a four-hitter in the opener in pitching the Indians to a 3-1 victory.

Yanks 6, Red Sox 3

The New York Yankees scored five runs in the sixth inning on four walks and four hits, including Mel Stottlemyre's run-producing single, for a 6-3 victory over Boston.

The Scoreboard

TENNIS—At Reggio Emilia, Italy, Adriano Panatta of Italy came from behind to defeat Australian-born Martin Mulligan, 3-6, 4-6, 6-4, 6-0, 6-1 and win the men's singles finals of the first Cimurri Trophy tournament.

BASKETBALL—At Essen, West Germany, the Soviet Union beat Poland, 94-73, to win the Group "A" Division of the European championship. In the semifinals, the Soviet Union will play Italy with group "B" winners Yugoslavia facing Poland.

SAILING—At Seattle, Dennis Conner of California took the cumulative points lead after the third race in a five-race series for the 1971 star world's championship race. Conner, who finished fifth in the first race and second in the second race, was sixth in the third. The placings gave him a 137 points total. Trailing Conner with 130 points is another Californian Helmsman, Lowell North.

IOC Wants Rhodesians In Olympics

Brundage Angry At Bloc Pressure

LUXEMBOURG, Sept. 15 (UPI).—Avery Brundage, president of the International Olympic Committee, served notice today the committee will not bow to bloc pressure to exclude Rhodesia from the 1972 Munich Olympic Games.

At a news conference at the end of the first working session of the 71st IOC conference in the Luxembourg Municipal Hall, Brundage, 83, said that the IOC had received identical letters from 35 of the 132 national Olympic committees. The letters asked the IOC to investigate the conditions of sport within Rhodesia—a demand pressed earlier this year by African members who allege racial discrimination in Rhodesian sports.

"We have no knowledge of racial discrimination in Rhodesia and Rhodesia has followed Olympic regulations," Brundage said. "The letter also suggested we examine the political situation but we are not concerned with politics."

The letter to the IOC stemmed from a meeting in Munich last week of an organization calling itself the Permanent General Assembly of National Olympic Committees, which does not have official IOC sanction.

Brundage said the Permanent General Assembly was one of the "defects" in the existing Olympic setup.

"The national Olympic committees are agents of the International Olympic Committee and we have meetings with them all at intervals and see no necessity to change the system," Brundage said. "We meet their individual members rather than the separate organizations."

Referring to the identical letters, Brundage said:

"We did not like that and it reminded us of the unhappy position in which the United Nations finds itself. We do not want any bloc within our organization."

Following its meeting in Munich, the Permanent General Assembly—formed in Mexico in 1968—also presented a recommendation that Rhodesia be required to compete in the Munich Olympics with the same flag and national anthem it used at the 1964 Games.

But since 1964, Rhodesia has declared itself independent from Britain and adopted a new flag. There were doubts in Olympic circles that Rhodesia would compete in 1972 under the British flag.

Rhodesia received an invitation to compete in the Munich Olympics earlier this year. It was after that that African sports officials pressed their campaign to exclude Rhodesia, with several countries, such as Ethiopia and Zambia, threatening boycott.

To Gain U.S. Open Titles

Smith, Mrs. King Triumph

FOREST HILLS N.Y., Sept. 15 (AP).—Stan Smith and Billie-Jean King smashed their way to the singles titles in the U.S. Open tennis championships today for the first American sweep in 16 years.

Smith cut down giant-killer Jan Kodes of Czechoslovakia, 3-6, 6-3, 6-2, 7-6 in an error-packed match, and Mrs. King defeated her long-time friend, Rosemary Casals, 6-4, 7-5, for the women. title.

Mrs. King, three times a Wimbledon winer but victor here only once before today in 1967, said, "I love to win the New York. The peope here have been good to me, but I always seem to tense up at Forest Hills."

Billie-Jean clinched the match with an overhead smash, winning the tie-breaker in the second set, 5-2. She collected a purse of $5,000, while Miss Casals collected $2,500; both champions received new cars.

The last time Americans won both the men's and women's singles in the same year was 1955 when Tonny Trabert captured the male title and Doris Hart the women's crown.

Smith, now earning $149.10 a month as a private in the U.S. Army, announced that he will donate his $20,000 first prize to the Davis Cup Fund in return for the Army's permitting him to compete. Smith also won a new car. Kodes's runner-up purse was $7,500.

The 6-foot 4-inch Davis Cupper became the first American to take the title since Arthur Ashe did it in 1968. Earlier this year, he was runner-up to Australian John Newcombe at Wimbledon, and will head the U.S. Davis Cup team that will defend the trophy against Romania at Charlotte, N. C., Oct. 8.

Kodes, who eliminated top-seeded Newcombe in the first round and erased Ashe yesterday in the semifinals, was seeking to become the third unseeded player in the tournament's history to go all the way. Mal Anderson did it in 1957 and Fred Stolle in 1966. Both are Australians.

One of the world's great clay court players, winner of the French Open at Paris the last two years and runner-up to Rod Laver in the Italian Open at Rome, the 25-year-old Czech acknowledged that he was lucky to go as far as he did.

"I only wanted to win one set off Newcombe so I would not be embarrassed," he said. "I do not play well on grass. Tennis on grass is a joke." His runner-up purse was $7,500.

Against Smith, Kodes was only a shadow of the man who cut down Newcombe and five other rivals with his rabbit-like speed and lightning reflexes.

Smith was not in best form, either. He dropped service five times and he was casual and loose on his volleying.

Through the first three sets, only three games were carried to deuce and only one of these beyond eight points. That was the fifth game of the third set, which went to 16 exciting points with Smith having three chances to break service before he finally won when Kodes double-faulted for advantage and then dumped a volley into the net.

Kodes was guilty of eight double-faults, double-faulting at game point in the fourth game of the second set and again at game point in the seventh game of the fourth.

The disease was contagious. Smith double-faulted in losing his service for the fifth time, tying the fourth set at 4-4.

Then with the score at 6-6, Kodes, serving first, on the nine-point tie-breaker, won the opening two points with high-kicking deliveries.

Smith countered with a service ace but Kodes brought the score to 3-1 with a whistling forehand down the line. Now the Czech had the advantage, with two services coming up.

But Smith scored on two brilliant winners on return of service to go 3-3. Kodes went for broke on the first of Smith's three final services and the ball missed the line by inches. Smith led, 4-3.

On the next point, Smith charged the net and clinched the match with a smash. He threw his racket in the air and hurdled the net—the new tennis champion of the United States.

In a championship match late yesterday, Mrs. King and Owen Davidson of Australia won the mixed doubles from Australian Judy Dalton and Frew McMillan of South Africa, 6-3, 7-5.

Football Deals

COLTS—Waived Marty Schottenheimer, linebacker; Dan Golch, defensive tackle; Gordon Bowdell, receiver, Michigan State, waived injured. Cotton Speyrer, receiver, Texas, to injured reserve.

BILLS—Obtained Ted Koy, running back, from Oakland for future draft choices.

BENGALS—Waived Art May, defensive tackle, Tuskegee; Joe Johnson, cornerback, J. C. Smith College; Irv Mallory, receiver, Virginia Union. Greg Cook, quarterback, to injured reserve.

BROWNS—Guy Homoly, defensive back, Illinois State, to injured-reserve list.

PATRIOTS—Waived Willis Crenshaw, fullback; Gayle Khief, receiver; Fred Whittingham, linebacker; Goldie Sellers, defensive back.

FALCONS—Waived Dave Hettema, tackle; Gene Foster, running back; Ray Brown, safety, West Texas State; Mike Lewis, end, Arkansas A. M. & N.

BEARS — Craig Baynham, running back, Gordon Bowdell, receiver, Michigan State, waived-injured.

PACKERS—Waived John Hilton, tight end; John Bramlett, linebacker; Virgil Robinson, receiver, Grambling; Jim Johnson, receiver, Bishop.

SOCCER—At Valletta, Malta, Hibernian of Malta and Steaua of Bucharest tied, 0-0, in their first-round, first-leg match in the European Cup-winners' Cup.

British Ryder Cup Team Wilts Before the Competition

ST. LOUIS, Sept. 15 (UPI). — Members of the British Ryder Cup team, practicing for their Ryder Cup matches against the top American golfers, yesterday brought some extra equipment to the golf course—salt tablets.

The British golfers, accustomed to cooler weather at home, wilted noticeably in the 99-degree temperature—hottest day of the year here—on the difficult course at Old Warson Country Club.

The three-day tournament starts Thursday.

The 12 American golfers did not appear to be bothered by the heat. Lee Trevino, the pride of El Paso, Texas, hustled over the course, and complained only about his putting.

Arnold Palmer said, "I got to believe the weather is going to be a factor. The British boys are just not used to this hot weather."

Jack Nicklaus, mentioning that the weather will have an effect on the course, said, "This time of year the ground is hard, and this area hasn't had any appreciable rain."

The powerful American team has two ailing members. Billy Casper has suffered a broken toe, and Trevino still is recuperating from his appendectomy.

On each of the days of competition, American team non-playing captain Jay Hebert will choose eight of his 12 golfers to play, and Hebert acknowledged that the problems of Casper and Trevino would have a bearing on his decision.

Charles Coody is on the American team after his $50,000 first-place finish in last weekend's World Series of Golf.

While not underestimating the British team, Coody said: "If bets were going to be made, they would be that we are going to beat them, although golf is a funny game, and anything can happen out on that course." The Americans are solid favorites.

Except for 1969, when Britain, spearheaded by Tony Jacklin and Peter Butler, tied the United States, 16-16, in Southport, England, the U.S. has won every year since 1957.

The competition between the golfers of the two nations will be Thursday, Friday and Saturday. The first day will be foursome competition with players on each team alternating shots. The second day will be four-ball competition with the score of the best ball counting in the match-play scoring. The final day will be singles competition.

There is no prize money involved in the Biennial Ryder Cup matches. The American players are given expense money for this week before they resume the lucrative pro golf tour.

Art Buchwald

Good News on Crime

WASHINGTON.—There was good news out of Washington last week. According to Attorney General John Mitchell, President Nixon's war on crime has been successful, and the results of the administration's monumental efforts have been so great that "fear is being swept from the streets of some—though not all—American cities."

Buchwald

He was supported in his optimism by Jerris Leonard, the Justice Department's law enforcement assistance administrator, who said the only ones who weren't happy with the decrease in the 1970 crime statistics were the President's critics.

"I believe," Mr. Jerris told a conference of law enforcement officials, "they are principally disturbed because they have lost something—crime as a political issue has been taken away from them. They feel they have been robbed, and being robbed they are angry."

The reason for the euphoria in the Justice Department is that FBI statistics for 1970 indicated that the rate of increase of crime had gone down from 12.0 percent in 1969 to 11.3 percent in 1970.

This sounded terrific, until I read that the same statistics revealed that 566,700 more crimes had been committed in 1970 than in 1969.

* * *

Admittedly confused, I sought out my friend Professor Heinrich Applebaum, the great Justice Department statistician, whose definitive book "Do Decimal Points Have a Sex Life?" is used in every math class in the country.

"Professor Applebaum, the Justice Department reports that the rate of crime has gone down in the country under President Nixon. Yet the same report says there have been a million more crimes in the past two years. How can that be?"

"It's quite simple," said Applebaum. "Percentagewise, crime has gone down, crimewise it's gone up."

"But where does that leave the average person?"

"It depends whether you're a Republican or a Democrat. If you're a Republican you have nothing to fear walking the streets of our American cities. But if I were a Democrat, I'd stay home."

"Are you saying that the Republicans are trying to take the crime issue out of the 1972 campaign?"

"They have." Applebaum said. "The last year the Democrats were in office crime had gone up 13.8 percent. When the Republicans took over in 1969 it only went up 12.0 and last year 11.3 percent. The Democrats can't argue with that."

"But still more people were robbed, mugged, murdered, and raped in 1969 and 1970 than they were in the previous four years."

* * *

"We're not talking about people," Applebaum said, irritated. "We're talking about percentages. You can't think about the people who were molested in 1969 and 1970, you have to think about the ones who weren't. There are probably over 100,000 citizens who weren't mugged this year, thanks to President Nixon's leadership."

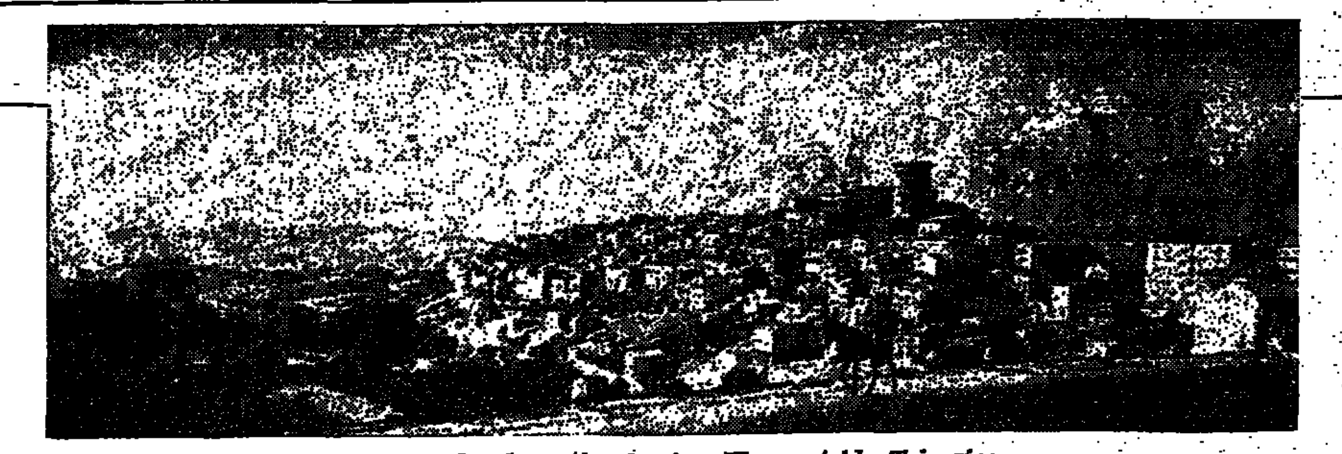

"It's hard to think in those terms," I admitted.

"That's because you're not running for election next year. You must understand the reporting of crimes is a very serious business, and can cause great conflict. J. Edgar Hoover, in order to prove he is doing his job, has to show that crime is going up in the country. At the same time the administration has to prove that crime is going down.

"The attorney general has solved the problem by reporting the percentages, which are lower, and Hoover by reporting the crimes, which are higher. That's the beauty of statistics. It makes everyone feel better."

"Well, thank you professor for the explanation."

"That's perfectly all right. Here, let me unlock the door for you. This is really a creepy neighborhood."

A mule plods along the Appian Way outside Tricarico.

The Exodus From a Mezzogiorno Town

By Marvine Howe

TRICARICO, Italy (NYT).—There's a feeling of isolation as one approaches this southern Italian town from the Appian Way, which winds along the crest of the Apennine Mountains.

There is no visible industry in the area. Many of the farmhouses are vacant and the land is unplowed. Women cluster at the fountains for water. The market is a pathetic display of local produce: peppers, tomatoes, eggplant and a few mediocre seasonal fruits.

In the square, a shriveled man in workman's blue blows a few shrill notes from his horn and announces the principal event of the day: a truck from a neighboring village is selling tomatoes for a good price.

Minguccio Il Mulatore, the town crier, used to make three tours of the town daily, but now he has fewer notices and *sometimes appears in the square only every other day.*

Girls in miniskirts and young men home from West Germany and northern Italy for the holidays pay him no heed. Only the old men who linger like monuments listen intently to his news of a lost chicken or the time for school registration.

A medieval farm town and the seat of a bishop, Tricarico is slowly changing, like much of southern Italy, but people are not sure what will become of it.

"The town is dying because everybody wants to leave the land," Pancrazio Toscano, a young teacher, said. "Most of my generation—between 20 and 35—doesn't exist any more."

The population of Tricarico, which was 12,000 in 1960, has dropped to about 8,500, according to official sources, and the decline is continuing.

The farmers left first, particularly from the land northeast of the town. They were promised irrigation water and it will probably come in a few years, but they grew tired of waiting. Then the shoemakers, tailors and craftsmen began to leave to find regular jobs in industry.

It is estimated that 2,400 Tricaricans have emigrated to West Germany, France, the Netherlands and Belgium. Eighteen hundred others are said to have gone to the industrial cities of northern Italy.

Nearly every family has someone "outside" supporting it. The monthly postal orders average out to 100,000 lire ($170) per *family. Recently the number of checks has begun to decline* because emigrants are taking their families with them.

Still, there has been improvement in Tricarico, according to Ann Cornelisen, an American social worker and author.

"My friends eat meat once a week now instead of three times a year," she said.

Miss Cornelisen came to Tricarico in 1959 for the Save the Children's Fund, a British group, to set up a demonstration nursery to train teachers. Her book "Torregreca" is widely considered a classic study of life in a southern Italian village.

"The piazza used to be empty, with no more than three or four cars belonging to the local gentry," Miss Cornelisen recalls. "More than half the town didn't have sewers or running water. Many houses in the old quarter didn't have electricity. There was not even a middle school before 1960. Our staple diet was bread, pasta, oil and persimmons; there was little else in the shops."

Now large, flashy cars, often with foreign licenses, are double-parked in the square. Nearly every family has a television set, even in the old quarter. Most houses have running water—although it is frequently cut off. The town has a middle school and high school as well.

"The trouble is that the changes have come mostly from outside, not within," Miss Cornelisen said.

Tricarico has been included in the development plans for the Mezzogiorno but even government officials concede that something has gone wrong.

The new superhighway from Salerno to Taranto, which was designed to open the south, is generally deserted and has actually had a negative effect on mountaintop towns like Tricarico.

The highway follows the Basento River Valley, missing all the old towns along the Appian Way. Connecting roads are long and winding and easily blocked by snow.

"We have already begun to feel the pinch of the superhighway," Deputy Mayor Giuseppe Lombardi says, pointing out that the main gasoline station in town has had to close. Previously all travelers in the region had to use the Appian Way, which brought business to the towns.

The new "industrial nucleus," which is part of the government's plan for the Mezzogiorno, appears stillborn. A rather desolate complex at Ferrandina in the valley 32 miles east of Tricarico, it was supposed to serve all the hillside villages in the area. There is a natural gas installation but the gas is piped to Bari for use in industry there. Three factories for porcelain fixtures, artificial threads and electric motors complete the picture.

Tricarico officials complain that the industrial nucleus is too far away and does not offer enough jobs. Only 20 people *from Tricarico work there. The main trouble* with Ferrandina is that it is an early victim of the current industrial recession.

The only factory in Tricarico produces salami and employs four people. New development plans involve $2.5 million to expand the factory and $1.6 million more for pigpens. The trouble is that there has been a substantial decline in the production of pigs because of a campaign to persuade people not to keep pigs in their bedrooms.

PEOPLE: *The View From Andorra*

So okay, we're just back from *Andorra and we're not going to* make a big thing of it this time. Just one observation, though. Two days touring the ferahluginer country, south to north, west to east, and would you believe we never saw a single rabbit?

* * *

Nor is Spain worth mentioning any more, as far as we're concerned, with the coastline from Barcelona to Algeciras an unrelieved and ill-conceived monument *to vintage Florida ticky*-tacky. Still, there's a certain charm about the raped shoreline, perhaps best expressed by Rudy Roan, a friend whose *aficion* dates to the days when Torremolinos was actually a "quaint fishing village." "What on earth brings you back year after year?" we asked him on our return, "the Costa del Sol? The Costa Blanca? The Costa Brava?" "Hell no," said Rudy. "The Costa Living."

* * *

Question: What's worse than having the windshield of your convertible shatter into shards when you're only 30 kilometers into the trip from the south of Spain to Paris?

Answer: Finding yourself in a long line of traffic—after the remains of your windshield have been daintily removed by sledgehammer in a local garage—*humming along a 50-mile-an*-hour no-passing no-stopping zone behind a roofless dump truck full of coarse sand.

There always seems to be a sliver lining, though. Pulling into an Esso station outside Tarragona, we were set upon by an eager young attendant who pirouetted gracefully toward the car brandishing with ritual panache a damp red rag in his left hand, only to end up moments later draped over our wife's lap, his business fist spasmodically squirting window-cleaner into the glove compartment.

* * *

Quotes of the week:

● "What's so new about hot pants?" asks **Marlene Dietrich.** "I wore them ages ago. They called them shorts."

● Having insured himself with Lloyd's against attacks by irate ladies, **Robin Hugessen**, of Halstead, England, who manufactures chastity belts, explains: "Women's Lib are in a militant mood in America where we sell most of our belts. I'm afraid it will catch on here." Catch on where?

● "Excommunication," says **Herb Caen,** "is when you [send] your kids to a Catholic [school and] they never write."
